THE TRUST

The Trust is an open-end management investment company organized as a Delaware statutory trust under the laws of the State of Delaware on October 3, 1996. The Trust's Agreement and Declaration of Trust (the "Declaration of Trust") permits the Trust's Board of Trustees (the "Board" or the "Trustees") to issue an unlimited number of full and fractional shares of beneficial interest, par value \$0.01 per share, which may be issued in any number of series. The Trust consists of various series that represent separate investment portfolios. The Board may from time to time issue other series, the assets and liabilities of which will be separate and distinct from any other series. This SAI relates only to the Fund.

The Semper Brentview Dividend Growth Equity Fund (the "Dividend Growth Fund") will commence operations on June 1, 2021.

Registration with the United States Securities and Exchange Commission ("SEC") does not involve supervision of the management or policies of the Fund. The Prospectus of the Fund and this SAI omit certain of the information contained in the Registration Statement filed with the SEC. Copies of such information may be obtained from the SEC upon payment of the prescribed fee or may be accessed free of charge at the SEC's website at www.sec.gov.

INVESTMENT POLICIES

The discussion below supplements information contained in the Prospectus with respect to the investment policies of the Fund.

Non-Diversification.

The Fund is a "non-diversified" mutual fund and, as such, its investments are not required to meet certain diversification requirements under federal securities law. The Fund is permitted to invest a greater percentage of its assets in the securities of a single issuer than a diversified fund. As a result, a decline in the value of those holdings would cause an overall decline in value to a greater degree than if each of these vehicles held a more diversified portfolio.

Although the Fund is a "non-diversified" investment company, and consequently is not limited in the proportion of its assets that may be invested in the securities of a single issuer, the Fund intends to conduct its operations so as to qualify to be taxed as a "regulated investment company" for federal income tax purposes, which will relieve the Fund of any liability for federal income tax to the extent its income and capital gains are distributed to shareholders. To so qualify, among other requirements, the Fund will limit its investment so that, at the close of each quarter of the taxable year, (1) not more than 25% of the Fund's total assets will be invested in the securities of a single issuer, and (2) with respect to 50% of its total assets, not more than 5% of its total assets will be invested in the securities of a single issuer and a Fund will not own more than 10% of the outstanding voting securities of a single issuer. The Fund's investments in U.S. Government securities are not subject to these limitations.

Percentage Limitations

Whenever an investment policy or limitation states a maximum percentage of the Fund's assets that may be invested in any security or other asset, or sets forth a policy regarding quality standards, such standards or percentage limitation will be determined immediately after and as a result of the Fund's acquisition or sale of such security or other asset. Accordingly, except with respect to borrowing, any subsequent change in values, net assets or other circumstances will not be considered in determining whether an investment complies with the Fund's investment policies and limitations. In addition, if a bankruptcy or other extraordinary event occurs concerning a particular investment by the Fund, the Fund may receive

stock, real estate or other investments that the Fund would not, or could not buy. If this happens the Fund would sell such investments as soon as practicable while trying to maximize the return to its shareholders.

Market and Regulatory Risk

Events in the financial markets and economy may cause volatility and uncertainty and affect performance. Such adverse effect on performance could include a decline in the value and liquidity of securities held by the Fund, unusually high and unanticipated levels of redemptions, an increase in portfolio turnover, a decrease in net asset value (“NAV”), and an increase in Fund expenses. It may also be unusually difficult to identify both investment risks and opportunities, in which case investment objectives may not be met. Market events may affect a single issuer, industry, sector, or the market as a whole. Traditionally liquid investments may experience periods of diminished liquidity. During a general downturn in the financial markets, multiple asset classes may decline in value and the Fund may lose value, regardless of the individual results of the securities and other instruments in which the Fund invests. It is impossible to predict whether or for how long such market events will continue, particularly if they are unprecedented, unforeseen or widespread events or conditions, pandemics, epidemics and other similar circumstances in one or more countries or regions. Therefore, it is important to understand that the value of your investment may fall, sometimes sharply and for extended periods, and you could lose money.

Governmental and regulatory actions, including tax law changes, may also impair portfolio management and have unexpected or adverse consequences on particular markets, strategies, or investments. Policy and legislative changes in the United States and in other countries are affecting many aspects of financial regulation, and may in some instances contribute to decreased liquidity and increased volatility in the financial markets. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time. In addition, economies and financial markets throughout the world are becoming increasingly interconnected. As a result, whether or not the Fund invests in securities of issuers located in or with significant exposure to countries experiencing economic and financial difficulties, the value and liquidity of the Fund’s investments may be negatively affected.

Exclusion from Definition of Commodity Pool Operator

Pursuant to amendments by the CFTC to Rule 4.5 under the Commodity Exchange Act (“CEA”), the Adviser has filed a notice of exemption from registration as a “commodity pool operator” with respect to the Fund. The Fund and the Adviser are therefore not currently subject to registration or regulation as a pool operator under the CEA. In order to claim the Rule 4.5 exemption, the Fund is significantly limited in their ability to invest in commodity futures, options and swaps (including securities futures, broad-based stock index futures and financial futures contracts). To the extent the Adviser, on behalf of a Fund, becomes no longer eligible to claim an exclusion from CFTC regulation, such Fund may consider steps, such as substantial investment strategy changes, in order to continue to qualify for exclusion from CFTC regulation, or the Adviser may determine that the Fund will operate subject to CFTC regulation. If a Fund operates subject to CFTC regulation, it may incur additional expenses. If a Fund adopts substantial investment strategy changes, it may affect its performance, as well as its fees and expenses.

The Fund may invest in the following types of investments, each of which is subject to certain risks, as discussed below:

Equity Securities

The Fund may invest in or hold equity securities. All investments in equity securities are subject to market risks that may cause their prices to fluctuate over time. Historically, the equity markets have moved in cycles and the value of the securities in the Fund’s portfolio may fluctuate substantially from day to day.

Common Stocks. A common stock represents a proportionate share of the ownership of a company and its value is based on the success of the company's business, any income paid to stockholders, the value of its assets, and general market conditions. In addition to the general risks set forth above, investments in common stocks are subject to the risk that in the event a company in which a Fund invests is liquidated, the holders of preferred stock and creditors of that company will be paid in full before any payments are made to the Fund as a holder of common stock. It is possible that all assets of that company will be exhausted before any payments are made to the Fund.

Foreign Securities

The Fund may invest its assets in U.S. dollar-denominated foreign equity securities including in American Depositary Receipts ("ADRs") issued by U.S. depository banks, which are traded on U.S. exchanges. The Fund may invest up to 10% of its total assets in foreign securities. In determining whether a company is foreign, the Sub-Adviser will consider various factors including where the company is headquartered, where the company's principal operations are located, where the company's revenues are derived, where the principal trading market is located and the country in which the company is legally organized. The weight given to each of these factors will vary depending upon the circumstances. Investments in foreign securities may involve a greater degree of risk than those in domestic securities.

ADRs in registered form are dollar-denominated securities designed for use in the U.S. securities markets. ADRs are sponsored and issued by domestic banks and they represent and may be converted into underlying foreign securities deposited with the domestic bank or a correspondent bank. ADRs do not eliminate the risks inherent in investing in the securities of foreign issuers. By investing in ADRs rather than directly in the foreign security, however, the Fund may avoid currency risk during the settlement period for either purchases or sales.

Securities of foreign companies may experience more rapid and extreme changes in value than securities of U.S. companies because a limited number of companies represent a small number of industries. Many foreign countries lack uniform accounting and disclosure standards comparable to those applicable to U.S. companies, and it may be more difficult to obtain reliable information regarding an issuer's financial condition and operations.

Brexit. In a June 2016 referendum, citizens of the United Kingdom voted to leave the European Union ("EU"). In March 2017, the United Kingdom formally notified the European Council of its intention to withdraw from the EU (commonly known as "Brexit") by invoking Article 50 of the Treaty on European Union, which triggered a two-year period of negotiations on the terms of Brexit. Brexit has resulted in volatility in European and global markets and may also lead to weakening in political, regulatory, consumer, corporate and financial confidence in the markets of the United Kingdom and throughout Europe. The longer term economic, legal, political, regulatory and social framework to be put in place between the United Kingdom and the EU remains unclear and may lead to ongoing political, regulatory and economic uncertainty and periods of exacerbated volatility in both the United Kingdom and in wider European markets for some time. Additionally, the decision made in the British referendum may lead to a call for similar referenda in other European jurisdictions, which may cause increased economic volatility in European and global markets. The mid-to long-term uncertainty may have an adverse effect on the economy generally and on the value of a Fund's investments. This may be due to, among other things: fluctuations in asset values and exchange rates; increased illiquidity of investments located, traded or listed within the United Kingdom, the EU or elsewhere; changes in the willingness or ability of counterparties to enter into transactions at the price and terms on which a Fund is prepared to transact; and/or changes in legal and regulatory regimes to which certain of a Fund's assets are or become subject. Fluctuations in the value of the British Pound and/or the Euro, along with the potential downgrading of

the United Kingdom's sovereign credit rating, may also have an impact on the performance of a Fund's assets or investments economically tied to the United Kingdom or Europe.

The full impact of Brexit and the nature of the future relationship between the United Kingdom and the European Union remains uncertain. The United Kingdom and the European Union reached a trade agreement on December 31, 2020 that is due to be approved by all applicable United Kingdom and European Union governmental bodies in early 2021. The period following the United Kingdom's withdrawal from the European Union is expected to be one of significant political and economic uncertainty particularly until the United Kingdom government and European Union member states agree and implement the terms of the United Kingdom's future relationship with the European Union. Brexit may create additional economic stresses for the United Kingdom, which may include causing a contraction of the United Kingdom economy and price volatility in United Kingdom stocks, decreased trade, capital outflows, devaluation of pounds sterling, and wider corporate bond spreads due to uncertainty and declines in business and consumer spending as well as foreign direct investment. The Fund may be negatively impacted by changes in law and tax treatment resulting from or following Brexit. Until the economic effects of Brexit become clearer, and while a period of political, regulatory and commercial uncertainty continues, there remains a risk that Brexit may negatively impact the value of investments held by the Fund.

Investment Companies

The Fund may invest in shares of other registered investment companies, including exchange-traded funds ("ETFs"), money market mutual funds and other mutual funds, as well as unregistered investment companies, which may be affiliated privately offered funds, in pursuit of its investment objective, in accordance with the limitations established under the Investment Company Act of 1940, as amended (the "1940 Act"). This may include investments in money market mutual funds in connection with a Fund's management of daily cash positions and for temporary defensive purposes. Investments in the securities of other investment companies may involve duplication of advisory fees and certain other expenses. By investing in another investment company, a Fund becomes a shareholder of that investment company. As a result, Fund shareholders indirectly will bear a Fund's proportionate share of the fees and expenses paid by shareholders of the other investment company, in addition to the fees and expenses Fund shareholders directly bear in connection with a Fund's own operations.

Private Funds

Unregistered, privately offered funds are not registered with the SEC and therefore are not subject to protections afforded by the 1940 Act, covering, among other areas, liquidity requirements, governance by an independent board, affiliated transaction restrictions, leverage limitations, public disclosure requirements and custody requirements. Because shares of privately offered funds are generally restricted to certain qualified purchasers, such shares may be illiquid and thus subject the Fund directly to liquidity risks. Even if an investment in a privately offered fund is deemed liquid at the time of investment, that fund may, in the future, alter the nature of its investments and cease to be a liquid investment fund, subjecting the Fund directly to liquidity risks. In addition, because shares of privately offered funds are not publicly traded, a fair value for the Fund's investments in these funds typically will have to be determined under policies approved by the Board.

Section 12(d)(1) Limitations and Exemptions

Section 12(d)(1)(A) of the 1940 Act generally prohibits a fund from purchasing (1) more than 3% of the total outstanding voting stock of another fund; (2) securities of another fund having an aggregate value in excess of 5% of the value of the acquiring fund; and (3) securities of the other fund and all other funds having an aggregate value in excess of 10% of the value of the total assets of the acquiring fund. There are some exceptions, however, to these limitations pursuant to various rules promulgated by the SEC. However, a Fund may rely on exemptive orders obtained by other registered investment companies that

permit a Fund to invest in such other investment companies beyond the limits of Section 12(d)(1) and the rules thereunder, subject to certain terms and conditions, including that a Fund enter into an agreement with such other registered investment companies regarding the terms of the investment.

A Fund may rely on Section 12(d)(1)(F) and Rule 12d1-3 of the 1940 Act, which provide an exemption from Section 12(d)(1) that allows a Fund to invest all of its assets in other registered funds, including ETFs, if, among other conditions: (a) a Fund, together with its affiliates, acquires no more than 3% percent of the outstanding voting stock of any acquired fund, and (b) the sales load or service fee charged on a Fund's shares is no greater than the limits set forth in Rule 2341 of the Conduct Rules of the Financial Industry Regulatory Authority, Inc. ("FINRA") applicable to a fund of funds (e.g., 8.5.1). In accordance with Rule 12d1-1 under the 1940 Act, the provisions of Section 12(d)(1) shall not apply to shares of money market funds purchased by a Fund, whether or not for temporary defensive purposes, provided that the Fund does not pay a sales charge, distribution fee or service fee as defined in Rule 2341 of the Conduct Rules of FINRA on acquired money market fund shares (or the Adviser must waive its advisory fees in amount necessary to offset any sales charge, distribution fee or service fee).

The SEC recently adopted revisions to the rules permitting funds to invest in other investment companies to streamline and enhance the regulatory framework applicable to fund of funds arrangements. While new Rule 12d1-4 will permit more types of fund of fund arrangements without an exemptive order, it imposes new conditions, including limits on control and voting of acquired funds' shares, evaluations and findings by investment advisers, fund investment agreements, and limits on most three-tier fund structures.

Exchange-Traded Funds. ETFs are open-end investment companies whose shares are listed on a national securities exchange. An ETF is similar to a traditional index mutual fund, but trades at different prices during the day on a security exchange like a stock. Similar to investments in other investment companies discussed above, the Fund's investments in ETFs will involve duplication of management fees and other expenses since the Fund will be investing in another investment company. In addition, the Fund's investment in ETFs is also subject to its limitations on investments in investment companies discussed above. To the extent the Fund invests in ETFs which focus on a particular market segment or industry, the Fund will also be subject to the risks associated with investing in those sectors or industries. The shares of the ETFs in which the Fund will invest will be listed on a national securities exchange and the Fund will purchase or sell these shares on the secondary market at its current market price, which may be more or less than its NAV per share.

As a purchaser of ETF shares on the secondary market, the Fund will be subject to the market risk associated with owning any security whose value is based on market price. ETF shares historically have tended to trade at or near their NAV per share, but there is no guarantee that they will continue to do so. ETFs that seek to replicate a particular benchmark index are subject to "tracking risk" which is the risk that an ETF will not be able to replicate exactly the performance of the index it tracks. Unlike traditional mutual funds, shares of an ETF may also be purchased and redeemed directly from the ETFs only in large blocks and only through participating organizations that have entered into contractual agreements with the ETF. The Fund does not expect to enter into such agreements and therefore will not be able to purchase and redeem its ETF shares directly from the ETF.

Short-Term, Temporary, and Cash Investments

The Fund may invest in any of the following securities and instruments:

Bank Certificates of Deposit, Bankers' Acceptances and Time Deposits. The Fund may acquire certificates of deposit, bankers' acceptances and time deposits. Certificates of deposit are negotiable certificates issued against funds deposited in a commercial bank for a definite period of time and earning a specified return. Bankers' acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are "accepted" by a bank, meaning in effect

that the bank unconditionally agrees to pay the face value of the instrument on maturity. Certificates of deposit and bankers' acceptances acquired by the Fund will be dollar denominated obligations of domestic or foreign banks or financial institutions which at the time of purchase have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. Government. If a Fund holds instruments of foreign banks or financial institutions, it may be subject to additional investment risks that are different in some respects from those incurred by a fund that invests only in debt obligations of U.S. domestic issuers. See "Foreign Investments" above. Such risks include future political and economic developments, the possible imposition of withholding taxes by the particular country in which the issuer is located on interest income payable on the securities, the possible seizure or nationalization of foreign deposits, the possible establishment of exchange controls or the adoption of other foreign governmental restrictions which might adversely affect the payment of principal and interest on these securities.

Domestic banks and foreign banks are subject to different governmental regulations with respect to the amount and types of loans which may be made and interest rates which may be charged. In addition, the profitability of the banking industry depends largely upon the availability and cost of funds for the purpose of financing lending operations under prevailing money market conditions. General economic conditions as well as exposure to credit losses arising from possible financial difficulties of borrowers play an important part in the operations of the banking industry.

As a result of federal and state laws and regulations, domestic banks are, among other things, required to maintain specified levels of reserves, limited in the amount which they can loan to a single borrower, and subject to other regulations designed to promote financial soundness. However, such laws and regulations do not necessarily apply to foreign bank obligations that a Fund may acquire.

In addition to purchasing certificates of deposit and bankers' acceptances, to the extent permitted under its investment objectives and policies stated above and in its Prospectus, a Fund may make interest bearing time or other interest bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

Savings Association Obligations. The Fund may invest in certificates of deposit (interest bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. Government.

Commercial Paper, Short-Term Notes and Other Corporate Obligations. The Fund may invest a portion of its assets in commercial paper and short-term notes. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short-term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

Commercial paper and short-term notes will consist of issues rated at the time of purchase "A-2" or higher by S&P, "Prime-1" by Moody's, or similarly rated by another nationally recognized statistical rating organization or, if unrated, will be determined by the Adviser to be of comparable quality. These rating symbols are described in **Appendix A**.

Repurchase Agreements

The Fund may enter into repurchase agreements with respect to its portfolio securities. Pursuant to such agreements, the Fund may acquire securities from financial institutions such as banks and broker-dealers as are deemed to be creditworthy by the Adviser, subject to the seller's agreement to repurchase and the

Fund's agreement to resell such securities at a mutually agreed upon date and price. The repurchase price generally equals the price paid by a Fund plus interest negotiated on the basis of current short-term rates (which may be more or less than the rate on the underlying portfolio security). Securities subject to repurchase agreements will be held by the Custodian or in the Federal Reserve/Treasury Book-Entry System or an equivalent foreign system. The seller under a repurchase agreement will be required to maintain the value of the underlying securities at not less than 102% of the repurchase price under the agreement. If the seller defaults on its repurchase obligation, the Fund will suffer a loss to the extent that the proceeds from a sale of the underlying securities are less than the repurchase price under the agreement. Bankruptcy or insolvency of such a defaulting seller may cause the Fund's rights with respect to such securities to be delayed or limited. Repurchase agreements are considered to be loans under the 1940 Act.

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements without limit as part of the Fund's investment strategy. Reverse repurchase agreements involve sales by a Fund of portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price. Generally, the effect of such a transaction is that a Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while a Fund will be able to keep the interest income associated with those portfolio securities. Such transactions are advantageous only if the interest cost to the Fund of the reverse repurchase transaction is less than the cost of obtaining the cash otherwise. Opportunities to achieve this advantage may not always be available, and the Fund intends to use the reverse repurchase technique only when the Adviser believes it will be advantageous to a Fund. An investment of the Fund's assets in reverse repurchase agreements will increase the volatility of the Fund's NAV. A counterparty to a reverse repurchase agreement must be a primary dealer that reports to the Federal Reserve Bank of New York or one of the largest 100 commercial banks in the United States. The Fund will establish a segregated account with the Trust's custodian bank in which the Fund will maintain cash or cash equivalents or other portfolio securities equal in value to the Fund's obligations in respect of reverse repurchase agreements. Reverse repurchase agreements are not considered to be borrowings for the purpose of the Fund's limitation on borrowing when assets have been appropriately segregated as described in the prior sentence.

When-Issued Securities

The Fund may purchase securities on a when-issued basis, for payment and delivery at a later date, generally within one month. The price and yield are generally fixed on the date of commitment to purchase, and the value of the security is thereafter reflected in the Fund's NAV. During the period between purchase and settlement, no payment is made by the Fund and no interest accrues to the Fund. At the time of settlement, the market value of the security may be more or less than the purchase price. When the Fund purchases securities on a when-issued basis, it maintains liquid assets in a segregated account with its custodian in an amount equal to the purchase price as long as the obligation to purchase continues.

Illiquid and Restricted Securities

Pursuant to Rule 22e-4 under the 1940 Act, the Fund may not acquire any "illiquid investment" if, immediately after the acquisition, the Fund would have invested more than 15% of its net assets in illiquid investments that are assets. An "illiquid investment" is any investment that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. The Fund has implemented a liquidity risk management program and related procedures to identify illiquid investments pursuant to Rule 22e-4. The 15% limits are applied as of the date the Fund purchases an illiquid investment. It is possible that a Fund's holding of illiquid investment could exceed the 15% limit, for example as a result of market developments or redemptions.

The Fund may purchase certain restricted securities that can be resold to institutional investors and which may be determined not to be illiquid investments pursuant to the Fund's liquidity risk management program. In many cases, those securities are traded in the institutional market pursuant to Rule 144A under the Securities Act of 1933, as amended (the "1933 Act") and are called Rule 144A securities. Investments in illiquid investments involve more risks than investments in similar securities that are readily marketable. Illiquid investments may trade at a discount from comparable, more liquid investments. Investment of the Fund's assets in illiquid investments may restrict the ability of the Fund to dispose of its investments in a timely fashion and for a fair price as well as its ability to take advantage of market opportunities. The risks associated with illiquidity will be particularly acute where the Fund's operations require cash, such as when the Fund has net redemptions, and could result in the Fund borrowing to meet short-term cash requirements or incurring losses on the sale of illiquid investments.

Restricted securities sold in private placement transactions between issuers and their purchasers are neither listed on an exchange nor traded in other established markets and may be illiquid. In many cases, the privately placed securities may not be freely transferable under the laws of the applicable jurisdiction or due to contractual restrictions on resale. To the extent privately placed securities may be resold in privately negotiated transactions, the prices realized from the sales could be less than those originally paid by the Fund or less than the fair value of the securities. A restricted security may be determined to be liquid under the Fund's liquidity risk management program established pursuant to Rule 22e-4 depending on market, trading, or investment-specific considerations related to the restricted security. In addition, issuers whose securities are not publicly traded may not be subject to the disclosure and other investor protection requirements that may be applicable if their securities were publicly traded. If any privately placed securities held by the Fund are required to be registered under the securities laws of one or more jurisdictions before being resold, the Fund may be required to bear the expenses of registration. Private placement investments may involve investments in smaller, less seasoned issuers, which may involve greater risks than investments in more established companies. These issuers may have limited product lines, markets or financial resources, or they may be dependent on a limited management group. In making investments in private placement securities, the Fund may obtain access to material non-public information about an issuer of private placement securities, which may restrict the Fund's ability to conduct transactions in those securities.

The Fund will monitor portfolio liquidity on an ongoing basis and, in the event that more than 15% of a Fund's net assets are invested in illiquid securities, the Fund will reduce such holdings to at or below the 15% limit within a reasonable period of time. The term "illiquid securities" has the same meaning as "illiquid investments" given in Rule 22e-4 under the 1940 Act and associated guidance.

Borrowing and Leverage Transactions

Subject to the limitations described under "Investment Restrictions" below, the Fund may be permitted to borrow for temporary purposes and/or for investment purposes. Such a practice will result in leveraging of a Fund's assets and may cause the Fund to liquidate portfolio positions when it would not be advantageous to do so. This borrowing may be secured or unsecured. Provisions of the 1940 Act require a Fund to maintain continuous asset coverage (that is, total assets including borrowings, less liabilities exclusive of borrowings) of 300% of the amount borrowed, with an exception for borrowings not in excess of 5% of the Fund's total assets made for temporary administrative purposes. Any borrowings for temporary administrative purposes in excess of 5% of a Fund's total assets must maintain continuous asset coverage. If the 300% asset coverage should decline as a result of market fluctuations or other reasons, the Fund may be required to sell some of its portfolio holdings within three days (excluding Sundays and holidays) to reduce the debt and restore the 300% asset coverage, even though it may be disadvantageous from an investment standpoint if the Fund sells holdings at that time. Entering into reverse repurchase agreements and purchasing securities on a when-issued, delayed delivery or forward

delivery basis are not subject to this limitation. Borrowing, like other forms of leverage, will tend to exaggerate the effect on NAV of any increase or decrease in the market value of the Fund's portfolio. Money borrowed will be subject to interest costs which may or may not be recovered by appreciation of the securities purchased, if any. The Fund also may be required to maintain minimum average balances in connection with such borrowing or to pay a commitment or other fee to maintain a line of credit; either of these requirements would increase the cost of borrowing over the stated interest rate.

The Fund may use leverage to increase potential returns. Leverage involves special risks and may involve speculative investment techniques. Leverage exists when cash made available to a Fund through an investment technique is used to make additional Fund investments. Leverage transactions include borrowing for other than temporary or emergency purposes, purchasing securities on margin (borrowing money from a bank to purchase securities), selling securities short (selling securities that are not owned), lending portfolio securities and entering into repurchase agreements. The Fund uses these investment techniques only when the Adviser believes that the leveraging and the returns available to the Fund from investing the cash will provide investors with a potentially higher return.

Securities Lending

The Fund may lend up to 33-1/3% of its total asset value to brokers, dealers and financial institutions (but not individuals) in order to increase the return on its portfolio. The SEC currently requires that the following conditions be met whenever the Fund's portfolio securities are loaned: (1) the Fund must receive at least 100% collateral (which may include cash, U.S. government, or agency securities, or irrevocable bank letters of credit) from the borrower; (2) the borrower must increase such collateral whenever the market value of the securities rises above the level of such collateral; (3) the Fund must be able to terminate the loan at any time; (4) the Fund must receive reasonable interest on the loan, as well as any dividends, interest, or other distributions on the loaned securities, and any increase in market value; (5) while voting rights on the loaned securities may pass to the borrower, the Board must terminate the loan and regain the right to vote the securities if a material event adversely affecting the investment occurs; and (6) the Fund may not loan its portfolio securities so that the value of the loaned securities is more than one-third of its total asset value, including collateral received from such loans.

In the case of the Fund, loans must be secured by collateral consisting of: (i) cash or cash equivalents; (ii) securities issued or guaranteed by the U.S. government or one of its agencies or instrumentalities; (iii) an irrevocable bank letter of credit; or (iv) any combination thereof, equal to not less than (a) 102% of the market value of the securities loaned that are principally settled in the United States at the inception of the loan and (b) 105% of the market value for securities that are cleared and principally settled outside the United States at the inception of the loan.

These conditions may be subject to future modification. Such loans will be terminable at any time upon specified notice. The Fund might experience the risk of loss if the institution with which it has engaged in a portfolio loan transaction breaches its agreement with the Fund. In addition, the Fund will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, the Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. As part of participating in a lending program, the Fund may be required to invest in collateralized debt or other securities that bear the risk of loss of principal. In addition, all investments made with the collateral received are subject to the risks associated with such investments. If such investments lose value, the Fund will have to cover the loss when repaying the collateral.

Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that the Fund may receive as collateral will not become part of the Fund's investment portfolio at the time of the loan and, in the event of a default by the borrower, the Fund will, if permitted

by law, dispose of such collateral except for such part thereof that is a security in which the Fund is permitted to invest. During the time securities are on loan, the borrower will pay the Fund any accrued income on those securities, and the Fund may invest the cash collateral and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral.

Special Risks Related to Cyber Security

The Fund and its service providers are susceptible to cyber security risks that include, among other things, theft, unauthorized monitoring, release, misuse, loss, destruction or corruption of confidential and highly restricted data; denial of service attacks; unauthorized access to relevant systems, compromises to networks or devices that the Fund and its service providers use to service the Fund's operations; or operational disruption or failures in the physical infrastructure or operating systems that support the Fund and its service providers. Cyber attacks against or security breakdowns of the Fund or its service providers may adversely impact the Fund and its shareholders, potentially resulting in, among other things, financial losses; the inability of Fund shareholders to transact business and the Fund to process transactions; inability to calculate the Fund's NAV; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs; and/or additional compliance costs. The Fund may incur additional costs for cyber security risk management and remediation purposes. In addition, cyber security risks may also impact issuers of securities in which the Fund invests, which may cause the Fund's investment in such issuers to lose value. There can be no assurance that the Fund or its service providers will not suffer losses relating to cyber attacks or other information security breaches in the future.

INVESTMENT RESTRICTIONS

The Trust (on behalf of the Fund) has adopted the following restrictions as fundamental policies, which may not be changed without the affirmative vote of the holders of a "majority of the Fund's outstanding voting securities" as defined in the 1940 Act. Under the 1940 Act, the "vote of the holders of a majority of the outstanding voting securities" means the vote of the holders of the lesser of (i) 67% of the shares of the Fund represented at a meeting at which the holders of more than 50% of its outstanding shares are represented or (ii) more than 50% of the outstanding shares of the Fund.

The Fund may not:

1. Borrow money, except as permitted under the 1940 Act.
2. Issue senior securities, except as permitted under the 1940 Act.
3. Engage in the business of underwriting securities, except to the extent that the Fund may be considered an underwriter within the meaning of the Securities Act of 1933 in the disposition of restricted securities.
4. Invest 25% or more of its total assets, calculated at the time of purchase and taken at market value, in any one industry (other than U.S. Government securities).
5. Purchase or sell real estate, which term does not include securities of companies which deal in real estate and/or mortgages or investments secured by real estate, or interests therein, except that a Fund reserves freedom of action to hold and to sell real estate acquired as a result of the Fund's ownership of securities.
6. Purchase or sell physical commodities or contracts relating to physical commodities.
7. Make loans to others, except as permitted under the 1940 Act.

The Fund observes the following policy, which is not deemed fundamental and which may be changed without shareholder vote. The Fund may not:

1. Invest in any issuer for purposes of exercising control or management.

PORTFOLIO TURNOVER

Although the Fund generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (1) the lesser of purchases or sales of portfolio securities for the fiscal year by (2) the monthly average of the value of portfolio securities owned during the fiscal year. A 100% turnover rate would occur if all the securities in the Fund's portfolio, with the exception of securities whose maturities at the time of acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of portfolio turnover (100% or more) generally leads to higher transaction costs and may result in a greater number of taxable transactions. High portfolio turnover generally results in the distribution of short-term capital gains which are taxed at the higher ordinary income tax rates.

MANAGEMENT

The overall management of the Trust's business and affairs is invested with its Board. The Board approves all significant agreements between the Trust and persons or companies furnishing services to it, including the agreements with the Adviser, Administrator, Custodian and Transfer Agent, each as defined herein. The day-to-day operations of the Trust are delegated to its officers, subject to the Fund's investment objectives, strategies and policies and to the general supervision of the Board. The Trustees and officers of the Trust, their ages and positions with the Trust, terms of office with the Trust and length of time served, their business addresses and principal occupations during the past five years and other directorships held are set forth in the table below.

Independent Trustees⁽¹⁾

Name, Address and Age	Position Held with the Trust	Term of Office and Length of Time Served*	Principal Occupation During Past Five Years	Number of Portfolios in Fund Complex Overseen by Trustee⁽²⁾	Other Directorships Held⁽³⁾
Gail S. Duree (age 74) 615 E. Michigan Street Milwaukee, WI 53202	Trustee	Indefinite term; since March 2014.	Director, Alpha Gamma Delta Housing Corporation (collegiate housing management) (2012 to July 2019); Trustee and Chair (2000 to 2012), New Covenant Mutual Funds (1999 to 2012); Director and Board Member, Alpha Gamma Delta Foundation (philanthropic organization) (2005 to 2011).	4	Trustee, Advisors Series Trust (for series not affiliated with the Funds).
David G. Mertens (age 61) 615 E. Michigan Street Milwaukee, WI 53202	Trustee	Indefinite term; since March 2017.	Partner and Head of Business Development Ballast Equity Management, LLC (a privately-held investment advisory firm) (February 2019 to present); Managing Director and Vice President, Jensen Investment Management, Inc. (a privately-held investment advisory firm) (2002 to 2017).	4	Trustee, Advisors Series Trust (for series not affiliated with the Funds).
Joe D. Redwine (age 73) 615 E. Michigan Street Milwaukee, WI 53202	Trustee	Indefinite term; since September 2008.	Retired; formerly Manager, President, CEO, U.S. Bancorp Fund Services, LLC, and its predecessors, (May 1991 to July 2017).	4	Trustee, Advisors Series Trust (for series not affiliated with the Funds).

Name, Address and Age	Position Held with the Trust	Term of Office and Length of Time Served*	Principal Occupation During Past Five Years	Number of Portfolios in Fund Complex Overseen by Trustee ⁽²⁾	Other Directorships Held ⁽³⁾
Raymond B. Woolson (age 62) 615 E. Michigan Street Milwaukee, WI 53202	Chairman of the Board; Trustee	Indefinite term; since January 2020 Indefinite term; since January 2016.	President, Apogee Group, Inc. (financial consulting firm) (1998 to present).	4	Trustee, Advisors Series Trust (for series not affiliated with the Funds); Independent Trustee, DoubleLine Funds Trust (an open-end investment company with 20 portfolios), DoubleLine Opportunistic Credit Fund, DoubleLine Selective Credit Fund and DoubleLine Income Solutions Fund, from 2010 to present.

Officers

Name, Address and Age	Position Held with the Trust	Term of Office and Length of Time Served	Principal Occupation During Past Five Years
Jeffrey T. Rauman (age 52) 615 E. Michigan Street Milwaukee, WI 53202	President, Chief Executive Officer and Principal Executive Officer	Indefinite term; since December 2018.	Senior Vice President, Compliance and Administration, U.S. Bank Global Fund Services (February 1996 to present).
Cheryl L. King (age 59) 615 E. Michigan Street Milwaukee, WI 53202	Vice President, Treasurer and Principal Financial Officer	Indefinite term; since December 2007.	Vice President, Compliance and Administration, U.S. Bank Global Fund Services (October 1998 to present).
Kevin J. Hayden (age 50) 615 E. Michigan Street Milwaukee, WI 53202	Assistant Treasurer	Indefinite term; since September 2013.	Vice President, Compliance and Administration, U.S. Bank Global Fund Services (June 2005 to present).
Richard R. Conner (age 38) 615 E. Michigan Street Milwaukee, WI 53202	Assistant Treasurer	Indefinite term; since December 2018.	Assistant Vice President, Compliance and Administration, U.S. Bank Global Fund Services (July 2010 to present).
Michael L. Ceccato (age 63) 615 E. Michigan Street Milwaukee, WI 53202	Vice President, Chief Compliance Officer and AML Officer	Indefinite term; since September 2009.	Senior Vice President, U.S. Bank Global Fund Services and Vice President, U.S. Bank N.A. (February 2008 to present).
Elaine E. Richards (age 53) 2020 E. Financial Way Glendora, CA 91741	Vice President and Secretary	Indefinite term; since September 2019.	Senior Vice President, U.S. Bank Global Fund Services (July 2007 to present).

* The Trustees have designated a mandatory retirement age of 75, such that each Trustee, serving as such on the date he or she reaches the age of 75, shall submit his or her resignation not later than the last day of the calendar year in which his or her 75th birthday occurs (“Retiring Trustee”). Upon request, the Board may, by vote of a majority of Trustees eligible to vote on such matter, determine whether or not to extend such Retiring Trustee’s term and on the length of a one-time extension of up to three additional years.

(1) The Trustees of the Trust who are not “interested persons” of the Trust as defined under the 1940 Act (“Independent Trustees”).

(2) As of April 30, 2021, the Trust was comprised of 34 active portfolios managed by unaffiliated investment advisers. The term “Fund Complex” applies only to the Fund and the other series in the Trust managed by Semper Capital Management, L.P.). The Funds do not hold themselves out as related to any other series within the Trust for investment purposes, nor do they share the same investment adviser with any other series.

(3) “Other Directorships Held” includes only directorships of companies required to register or file reports with the SEC under the 1934 Act (that is, “public companies”) or other investment companies registered under the 1940 Act.

Compensation

As of January 1, 2021, the Independent Trustees will each receive an annual trustee fee of \$94,500 allocated among each of the various portfolios comprising the Trust, an additional \$6,000 per regularly scheduled Board meeting, and an additional \$500 per telephonic board meeting, paid by the Trust or applicable advisers/portfolios, as well as reimbursement for expenses incurred in connection with attendance at Board meetings. The Trust Chair, chair of the Audit Committee and Chair of the Governance Committee each receive a separate annual fee of \$10,000, \$5,000 and \$3,000 respectively, provided that the separate fee for the chair of the Audit Committee will be waived if the same individual

serves as both the Board Chair and Audit Committee chair. The Trust has no pension or retirement plan. No other entity affiliated with the Trust pays any compensation to the Trustees. Set forth below is the estimated compensation expected to be received by the Independent Trustees from the Fund for the fiscal period ending November 30, 2021.

	Estimated Aggregate Compensation from the Fund⁽¹⁾	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from Fund Complex Paid to Trustees⁽²⁾
Independent Trustee				
Gail S. Duree	\$3,449	None	None	\$14,478
David G. Mertens	\$3,395	None	None	\$14,251
Raymond B. Woolson	\$3,582	None	None	\$15,017
Joe D. Redwine	\$3,316	None	None	\$13,911

⁽¹⁾ Estimated for the Fund's fiscal year ending November 30, 2021.

⁽²⁾ There are currently numerous portfolios comprising the Trust. The term "Fund Complex" applies to the Fund and the other series managed by the investment adviser within the Trust (*i.e.*, the Semper MBS Total Return Fund and the Semper Short Duration Fund). For the fiscal year ended November 30, 2020, aggregate Independent Trustees' fees for the Trust were \$514,500.

Additional Information Concerning Our Board of Trustees

The Role of the Board

The Board provides oversight of the management and operations of the Trust. Like all mutual funds, the day-to-day responsibility for the management and operation of the Trust is the responsibility of various service providers to the Trust, such as the Trust's investment advisers, distributor, administrator, custodian, and transfer agent, each of whom are discussed in greater detail in this SAI. The Board approves all significant agreements between the Trust and its service providers, including the agreements with the investment advisers, distributor, administrator, custodian and transfer agent. The Board has appointed various senior individuals of certain of these service providers as officers of the Trust, with responsibility to monitor and report to the Board on the Trust's day-to-day operations. In conducting this oversight, the Board receives regular reports from these officers and service providers regarding the Trust's operations. The Board has appointed a Chief Compliance Officer ("CCO") who administers the Trust's compliance program and regularly reports to the Board as to compliance matters. Some of these reports are provided as part of formal "Board Meetings" which are typically held quarterly, in person, and involve the Board's review of recent Trust operations. From time to time one or more members of the Board may also meet with Trust officers in less formal settings, between formal "Board Meetings," to discuss various topics. In all cases, however, the role of the Board and of any individual Trustee is one of oversight and not of management of the day-to-day affairs of the Trust and its oversight role does not make the Board a guarantor of the Trust's investments, operations or activities.

Board Leadership Structure

The Board has structured itself in a manner that it believes allows it to effectively perform its oversight function. It has established four standing committees, an Audit Committee, a Nominating and Governance Committee and a Qualified Legal Compliance Committee (the "QLCC"), which are discussed in greater detail under "Board Committees," below. Currently, all of the members of the Board are Independent Trustees, which are Trustees that are not affiliated with the Adviser or its affiliates or any other investment adviser in the Trust or with its principal underwriter. The Independent Trustees have engaged their own independent counsel to advise them on matters relating to their responsibilities in connection with the Trust.

The President, Chief Executive Officer and Principal Executive Officer of the Trust is not a Trustee, but rather is a senior employee of the Administrator who routinely interacts with the unaffiliated investment advisers of the Trust and comprehensively manages the operational aspects of the Funds in the Trust. The Trust has appointed Raymond Woolson, an Independent Trustee, as Chairman of the Board, and he acts as a liaison with the Trust's service providers, officers, legal counsel, and other Trustees between meetings, helps to set Board meeting agendas, and serves as chair during executive sessions of the Independent Trustees.

The Board reviews its structure annually. The Trust has determined that it is appropriate to separate the Principal Executive Officer and Board Chairman positions because the day-to day responsibilities of the Principal Executive Officer are not consistent with the oversight role of the Trustees and because of the potential conflict of interest that may arise from the Administrator's duties with the Trust. Given the specific characteristics and circumstances of the Trust as described above, the Trust has determined that the Board's leadership structure is appropriate.

Board Oversight of Risk Management

As part of its oversight function, the Board receives and reviews various risk management reports and assessments and discusses these matters with appropriate management and other personnel. Because risk management is a broad concept comprised of many elements (such as, for example, investment risk, issuer and counterparty risk, compliance risk, operational risks, business continuity risks, etc.) the oversight of different types of risks is handled in different ways. For example, the Nominating and Governance Committee meets regularly with the CCO to discuss compliance and operational risks and the Audit Committee meets with the Treasurer and the Trust's independent public accounting firm to discuss, among other things, the internal control structure of the Trust's financial reporting function. The full Board receives reports from the Adviser and portfolio managers as to investment risks as well as other risks that may be also discussed in Audit Committee.

Information about Each Trustee's Qualification, Experience, Attributes or Skills

The Board believes that each of the Trustees has the qualifications, experience, attributes and skills ("Trustee Attributes") appropriate to their continued service as Trustees of the Trust in light of the Trust's business and structure. Each of the Trustees has substantial business and professional backgrounds that indicate they have the ability to critically review, evaluate and access information provided to them. Certain of these business and professional experiences are set forth in detail in the table above. In addition, the majority of the Trustees have served on boards for organizations other than the Trust, as well as having served on the Board of the Trust for a number of years. They therefore have substantial board experience and, in their service to the Trust, have gained substantial insight as to the operation of the Trust. The Board annually conducts a 'self-assessment' wherein the effectiveness of the Board and individual Trustees is reviewed.

In addition to the information provided in the table above, below is certain additional information concerning each particular Trustee and certain of their Trustee Attributes. The information provided below, and in the table above, is not all-inclusive. Many Trustee Attributes involve intangible elements, such as intelligence, integrity, work ethic, the ability to work together, the ability to communicate effectively, the ability to exercise judgment, the ability to ask incisive questions, and commitment to shareholder interests. In conducting its annual self-assessment, the Board has determined that the Trustees have the appropriate attributes and experience to continue to serve effectively as Trustees of the Trust.

Gail S. Duree. Ms. Duree has served as a trustee and chair on a mutual fund board and is experienced in financial, accounting and investment matters through her experience as past audit committee chair of a mutual fund complex as well as through her service as Treasurer of a major church from 1999 to 2009.

Ms. Duree also served as director of a collegiate housing management company and has served as a director of a philanthropic organization where she sat as chair of the finance committee. Ms. Duree serves as the Trust's Audit Committee Financial Expert.

David G. Mertens. Mr. Mertens has substantial mutual fund experience and is experienced with financial, accounting, investment and regulatory matters. He currently serves as Partner and Head of Business Development of Ballast Equity Management, LLC, a privately-held investment advisory firm. Mr. Mertens also gained substantial mutual fund experience through his tenure as Managing Director and Vice President of Jensen Investment Management, Inc. ("Jensen") from 2002 to 2017. Prior to Jensen, Mr. Mertens held various roles in sales and marketing management with Berger Financial Group, LLC from 1995 to 2002, ending as Senior Vice President of Institutional Marketing for Berger Financial Group and President of its limited purpose broker-dealer, Berger Distributors.

Joe D. Redwine. Mr. Redwine has substantial mutual fund experience and is experienced with financial, accounting, investment and regulatory matters through his experience as President and CEO of U.S. Bancorp Fund Services, LLC, a full-service provider to mutual funds and alternative investment products. In addition, he has extensive experience consulting with investment advisers regarding the legal structure of mutual funds, distribution channel analysis and actual distribution of those funds.

Raymond B. Woolson. Mr. Woolson has served on a number of mutual fund boards and is experienced with financial, accounting, investment and regulatory matters through his experience as Lead Independent Trustee and Audit Committee Chair for the DoubleLine Funds as well as through his service as President of Apogee Group, Inc., a company providing financial consulting services. Mr. Woolson also has substantial mutual fund operations, financial and investment experience through his prior service in senior and management positions in the mutual fund industry, including service as Senior Managing Director in Investment Management for Mass Mutual Life Insurance Company, where he oversaw fund accounting, fund administration and client services and also served as Chief Financial Officer and Treasurer for various funds and other investment products. Mr. Woolson has also served as a consultant for Coopers & Lybrand (now known as, "PricewaterhouseCoopers" or "PWC") where he provided management consulting services to the mutual fund industry and the investment management areas of the banking and insurance industries.

Board Committees

The Trust has established the following three standing committees and the membership of each committee to assist in its oversight functions, including its oversight of the risks the Trust faces: the Audit Committee, the QLCC, and the Nominating and Governance Committee. There is no assurance, however, that the Board's committee structure will prevent or mitigate risks in actual practice. The Trust's committee structure is specifically not intended or designed to prevent or mitigate the Fund's investment risks. The Fund is designed for investors that are prepared to accept investment risk, including the possibility that as yet unforeseen risks may emerge in the future.

The Audit Committee is comprised of all of the Independent Trustees. Ms. Duree is the Chairperson of the Audit Committee. The Audit Committee typically meets once per year with respect to the various series of the Trust. The function of the Audit Committee, with respect to each series of the Trust, is to review the scope and results of the audit and any matters bearing on the audit or the Fund's financial statements and to ensure the integrity of the Fund's pricing and financial reporting.

The Audit Committee also serves as the QLCC for the Trust for the purpose of compliance with Rules 205.2(k) and 205.3(c) of the Code of Federal Regulations, regarding alternative reporting procedures for attorneys retained or employed by an issuer who appear and practice before the SEC on behalf of the issuer (the "issuer attorneys"). An issuer attorney who becomes aware of evidence of a

material violation by the Trust, or by any officer, director, employee, or agent of the Trust, may report evidence of such material violation to the QLCC as an alternative to the reporting requirements of Rule 205.3(b) (which requires reporting to the chief legal officer and potentially “up the ladder” to other entities).

The Nominating and Governance Committee is comprised of all, and only of, the Independent Trustees. The Nominating and Governance Committee is responsible for seeking and reviewing candidates for consideration as nominees for Trustees as is considered necessary from time to time and meets only as necessary. The Nominating and Governance Committee will consider nominees recommended by shareholders for vacancies on the Board. Recommendations for consideration by the Nominating and Governance Committee should be sent to the President of the Trust in writing together with the appropriate biographical information concerning each such proposed Nominee, and such recommendation must comply with the notice provisions set forth in the Trust’s By-Laws. In general, to comply with such procedures, such nominations, together with all required biographical information, must be delivered to and received by the President of the Trust at the principal executive office of the Trust between 120 and 150 days prior to the shareholder meeting at which any such nominee would be voted on.

The Nominating and Governance Committee meets regularly with respect to the various series of the Trust. The Nominating and Governance Committee is also responsible for, among other things, assisting the Board in its oversight of the Trust’s compliance program under Rule 38a-1 under the 1940 Act, reviewing and making recommendations regarding Independent Trustee compensation and the Trustees’ annual “self-assessment.” Mr. Mertens is the Chairman of the Nominating and Governance Committee.

Additionally, the Trust’s Board has delegated day-to-day valuation issues to a Valuation Committee that is comprised of representatives from the Administrator’s staff. The function of the Valuation Committee is to value securities held by any series of the Trust for which current and reliable market quotations are not readily available. Such securities are valued at their respective fair values as determined in good faith by the Valuation Committee and the actions of the Valuation Committee are subsequently reviewed and ratified by the Board. The Valuation Committee meets as needed.

Trustee Ownership of Fund Shares and Other Interests

The following table shows the amount of shares in the Fund and the amount of shares in the aggregate owned by the Trustees as of the calendar year ended December 31, 2020.

	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by Trustee in Family of Investment Companies
Independent Trustees	(None, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, Over \$100,000)	
Gail S. Duree	None	Over \$100,000
David G. Mertens	None	Over \$100,000
Raymond B. Woolson	None	None
Joe D. Redwine	None	Over \$100,000

As of December 31, 2020, neither the Independent Trustees nor members of their immediate family, own securities beneficially or of record in the Advisor, the distributor, as defined below, or an affiliate of the Advisor or distributor. Accordingly, neither the Independent Trustees nor members of their immediate

family, have direct or indirect interest, the value of which exceeds \$120,000, in the Advisor, the distributor or any of their affiliates. In addition, during the two most recently completed calendar years, neither the Independent Trustees nor members of their immediate families have conducted any transactions (or series of transactions) in which the amount involved exceeds \$120,000 and to which the Advisor, the distributor or any affiliate thereof was a party.

Control Persons, Principal Shareholders, and Management Ownership

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of a Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of a company or acknowledges the existence of control. Shareholders with a controlling interest could affect the outcome of voting or the direction of management of a Fund. As of the date of this SAI, the Fund had no shares outstanding.

PROXY VOTING POLICIES AND PROCEDURES

The Board has adopted Proxy Voting Policies and Procedures (the “Policies”) on behalf of the Trust which delegate the responsibility for voting proxies to the Adviser and Sub-Adviser, subject to the Board’s continuing oversight. The Policies require that the Adviser and Sub-Adviser vote proxies received in a manner consistent with the best interests of the Fund and its shareholders. The Policies also require the Adviser and Sub-Adviser to present to the Board, at least annually, the Adviser’s Policies and the Sub-Adviser’s Policies and a record of each proxy voted by the Adviser and Sub-Adviser on behalf of the Fund, including a report on the resolution of all proxies identified by the Adviser as involving a conflict of interest. See **Appendix B** for the Trust Policies, the Adviser Policies and the Sub-Adviser Policies.

The Trust is required to file a Form N-PX, with the Fund’s complete proxy voting record for the 12 months ended June 30, no later than August 31 of each year. The Fund’s proxy voting record will be available without charge, upon request, by calling toll-free 1-855-736-7799 (855-SEM-PRXX) and on the SEC’s website at www.sec.gov.

THE FUND’S INVESTMENT ADVISER

Semper Capital Management, L.P., located at 52 Vanderbilt Avenue, 4th Floor, New York, NY 10017-3851, acts as investment adviser to the Fund pursuant to an investment advisory agreement (the “Advisory Agreement”) with the Trust. Mr. Richard Parsons and Mr. Ronald Lauder each own over 25% of the Adviser and are both control persons of the Adviser.

In consideration of the services to be provided by the Adviser pursuant to the Advisory Agreement, the Adviser is entitled to receive from the Fund an investment advisory fee computed daily and payable monthly, based on an annual rate equal to 0.70% of average daily net assets of the Dividend Growth Fund’s average daily net assets.

The Adviser has not been paid any advisory fees as of the date of this SAI.

The Advisory Agreement will remain in effect with respect to the Fund for an initial two-year period. After the initial two-year period, the Advisory Agreement continues in effect for successive annual periods so long as such continuation is specifically approved at least annually by the vote of (1) the Board (or a majority of the outstanding shares of the Fund), and (2) a majority of the Trustees who are not interested persons of any party to the Advisory Agreement, in each case, cast in person at a meeting called for the purpose of voting on such approval. The Advisory Agreement may be terminated at any time, without penalty, by either party to the Advisory Agreement upon a 60-day written notice and is automatically terminated in the event of its “assignment,” as defined in the 1940 Act.

In addition to the management fees payable to the Adviser, the Fund is responsible for its own operating expenses, including: fees and expenses incurred in connection with the issuance, registration and transfer of its shares; brokerage and commission expenses; all expenses of transfer, receipt, safekeeping, servicing and accounting for the cash, securities and other property of the Trust for the benefit of the Fund including all fees and expenses of its custodian and accounting services agent; interest charges on any borrowings; costs and expenses of pricing and calculating its daily NAV per share and of maintaining its books of account required under the 1940 Act; taxes, if any; a pro rata portion of expenditures in connection with meetings of the Fund’s shareholders and the Trust’s Board that are properly payable by the Fund; salaries and expenses of officers and fees and expenses of members of the Board or members of any advisory board or committee who are not members of, affiliated with or interested persons of the Adviser or Administrator; insurance premiums on property or personnel of the Fund which inure to its benefit, including liability and fidelity bond insurance; the cost of preparing and printing reports, proxy statements, prospectuses and the statement of additional information of the Fund or other communications for distribution to existing shareholders; legal counsel, auditing and accounting fees; trade association membership dues (including membership dues in the Investment Company Institute allocable to the Fund); fees and expenses (including legal fees) of registering and maintaining registration of its shares for sale under federal and applicable state and foreign securities laws; all expenses of maintaining shareholder accounts, including all charges for transfer, shareholder recordkeeping, dividend disbursing, redemption, and other agents for the benefit of the Fund, if any; and all other charges and costs of its operation plus any extraordinary and non-recurring expenses, except as otherwise prescribed in the Advisory Agreement.

The Adviser is authorized to delegate certain of its duties with respect to the Fund to one or more sub-advisers. The Adviser has engaged the Sub-Adviser pursuant to this authority and is responsible for overseeing the Sub-Adviser and recommending their hiring, termination, and replacement for approval by the Board.

The Adviser is also responsible for determining the portion of the Fund’s assets to be managed by any given sub- adviser and reallocating those assets as necessary from time to time.

The Adviser retains overall responsibility for the management and investment of the assets of the Fund. In this capacity, the Adviser plays an active role in overseeing, monitoring and reviewing the Sub- Adviser in the performance of its duties. The Adviser monitors the investment performance of the Sub-Adviser and also evaluates the portfolio management teams to determine whether their investment activities remain consistent with the Fund’s investment objective, strategies and policies. The Adviser also monitors changes that may impact the Sub- Adviser’s overall business and regularly performs due diligence reviews of the Sub-Adviser. In addition, the Adviser obtains detailed, comprehensive information concerning each Sub-Adviser’s performance and Fund operations and provides regular reports on these matters to the Board. In its role as sponsor and primary investment adviser to the Funds,

the Adviser assumes reputational and other risks associated with the operation of each Fund and provides the Funds with the ability to use the Adviser's name and brand, as well as access to other services provided by the Adviser and its affiliates.

Manager-of-Managers Arrangement

Section 15(a) of the 1940 Act requires that all contracts pursuant to which persons serve as investment advisers to investment companies be approved by shareholders. This requirement also applies to the appointment of sub-advisers to the Fund. The Trust and the Adviser have applied for exemptive relief from the SEC (the "Order"), which permits the Adviser, on behalf of the Fund and subject to the approval of the Board, including a majority of the independent members of the Board, to hire, and to modify any existing or future subadvisory agreement with, unaffiliated sub-advisers and affiliated sub-advisers, including sub-advisers that are wholly-owned subsidiaries (as defined in the 1940 Act) of the Adviser or its parent company and sub-advisers that are partially-owned by, or otherwise affiliated with, the Adviser or its parent company (the "Manager-of-Managers Structure"). The Adviser has the ultimate responsibility for overseeing the Fund's sub-advisers and recommending their hiring, termination and replacement, subject to oversight by the Board. Assuming the Order is granted, it will also provide relief from certain disclosure obligations with regard to sub-advisory fees. With this relief, a Fund may elect to disclose the aggregate fees payable to the Adviser and wholly-owned sub-advisers and the aggregate fees payable to unaffiliated sub-advisers and sub-advisers affiliated with Adviser or its parent company, other than wholly-owned sub-advisers. The Order is subject to various conditions, including that a Fund will notify shareholders and provide them with certain information required by the exemptive order within 90 days of hiring a new sub-adviser. The Fund may also rely on any other current or future laws, rules or regulatory guidance from the SEC or its staff applicable to the Manager-of-Managers Structure. The sole initial shareholder of the Fund has approved the operation of the Fund under a Manager-of-Managers Structure with respect to any affiliated or unaffiliated subadviser, including in the manner that is permitted by the Order.

The Manager-of-Managers Structure will enable the Trust to operate with greater efficiency by not incurring the expense and delays associated with obtaining shareholder approvals for matters relating sub-advisers or sub-advisory agreements. Operation of the Funds under the Manager-of-Managers Structure will not permit management fees paid by the Fund to the Adviser to be increased without shareholder approval. Shareholders will be notified of any changes made to sub-advisers or material changes to sub-advisory agreements within 90 days of the change. There is no assurance the Order will be granted.

The Adviser and its affiliates may have other relationships, including significant financial relationships, with current or potential sub-advisers or their affiliates, which may create a conflict of interest. However, in making recommendations to the Board to appoint or to change a sub-adviser, or to change the terms of a sub-advisory agreement, the Adviser considers the sub-adviser's investment process, risk management, and historical performance with the goal of retaining sub-advisers for the Fund that the Adviser believes are skilled and can deliver appropriate risk-adjusted returns over a full market cycle. The Adviser does not consider any other relationship it or its affiliates may have with a sub-adviser or its affiliates, and the Adviser discloses to the Board the nature of any material relationships it has with a sub-adviser or its affiliates when making recommendations to the Board to appoint or to change a sub-adviser, or to change the terms of a sub-advisory agreement.

The Sub-Adviser

The Adviser has entered into a sub-advisory agreement with Brentview Investment Management, LLC (the "Sub-Adviser") with respect to the Fund (the "Sub-Advisory Agreement").

The Adviser compensates the Sub-Adviser out of the investment advisory fees the Adviser receives from the Fund. The Sub-Adviser makes investment decisions for the assets it has been allocated to manage, subject to the overall supervision of the Adviser. For its services, the Adviser will pay the Sub-Adviser a monthly management fee that is calculated at the annual rate of 0.325% of its average daily net assets. The fee paid to the Sub-Adviser is paid by the Adviser and not the Fund.

The Sub-Advisory Agreement will remain in effect with respect to the Fund for an initial two-year period. After the initial two-year period, the Sub-Advisory Agreement will continue in effect from year to year only as long as such continuance is specifically approved at least annually by (i) the Board or by the vote of a majority of the outstanding voting shares of the Fund, and (ii) by the vote of a majority of the Trustees of the Trust who are not parties to the Sub-Advisory Agreement or interested persons of the Adviser or the Sub-Adviser or the Trust. The Sub-Advisory Agreement may be terminated at any time without the payment of any penalty by the Board or by the vote of a majority of the outstanding voting shares of the Funds, or by the Sub-Adviser or the Adviser, upon 60 days' written notice to the other party. Additionally, the Sub-Advisory Agreement automatically terminate in the event of its assignment. The Sub-Advisory Agreement provides that the Sub-Adviser shall not be liable for any error of judgment or for any loss suffered by the Trust in connection with the Sub-Advisory Agreement, except for a loss resulting from a breach of fiduciary duty, or for a loss resulting from willful misfeasance, bad faith or gross negligence in the performance of its duties, or from reckless disregard by the Sub-Adviser of its duties under the Sub-Advisory Agreement.

Fund Expenses

Though the Fund is responsible for their own operating expenses, the Adviser has contractually agreed to waive a portion or all of the management fees payable to it by the Fund and to pay Fund operating expenses to the extent necessary to limit the Fund's aggregate annual operating expenses (excluding acquired fund fees and expenses, taxes, interest expense, dividends on securities sold short, extraordinary expenses, Rule 12b-1 fees, shareholder servicing fees and any other class-specific expenses) to the limits set forth in the Annual Fund Operating Expenses table of the Prospectus. The Adviser may request recoupment of previously waived fees and paid expenses in any subsequent month in the 36-month period from the date of the management fee reduction and expense payment if the aggregate amount actually paid by the Fund toward the operating expenses for such fiscal year (taking into account the reimbursement) will not cause the Fund to exceed the lesser of: (1) the expense limitation in place at the time of the management fee reduction and expense payment; or (2) the expense limitation in place at the time of the reimbursement. Any such recoupment is also contingent upon the Board's subsequent review and ratification of the recouped amounts. Such recoupment may not be paid prior to a Fund's payment of current ordinary operating expenses.

Portfolio Managers

Mr. James R. Boothe and Mr. Hai H. Vu are the portfolio managers principally responsible for the day-to-day management of the Fund's portfolios. The following table shows the number of other accounts managed by the portfolio managers and the total assets in the accounts managed within various categories as of November 30, 2020:

Mr. James R. Boothe

Type of Accounts	Number of Accounts (excluding the Fund)	Total Assets	Number of Accounts with Advisory Fee based on Performance	Total Assets in Accounts for Which Advisory Fee is Based on Performance
Registered Investment Companies	1	\$76,076,234	0	\$0
Other Pooled Investments	0	0	0	\$0
Other Accounts	81	\$75,224,061	0	\$0

Mr. Hai H. Vu

Type of Accounts	Number of Accounts (excluding the Fund)	Total Assets	Number of Accounts with Advisory Fee based on Performance	Total Assets in Accounts for Which Advisory Fee is Based on Performance
Registered Investment Companies	1	\$76,076,234	0	\$0
Other Pooled Investments	0	0	0	\$0
Other Accounts	81	\$75,224,061	0	\$0

Material Conflicts of Interest. The Sub-Adviser does not foresee any conflicts of interest in the management of the Fund and its other accounts. The Sub-Adviser, as a matter of policy and practice, acts as a fiduciary in all client matters, seeks to avoid or resolve conflicts of interest, and meets all regulatory requirements. Standards of business conduct are detailed in the Sub-Adviser's Code of Ethics. Each employee is responsible to have read, be familiar with, and annually certify compliance with the Sub-Adviser's Code of Ethics. There is no conflict of the duties necessary for the Fund and other products. In all cases, the Sub-Adviser acts as a fiduciary of client assets and accounts and follows its trading policies and procedures.

Compensation. The portfolio managers' compensation packages consist of fixed salaries and bonuses. The bonus is not based upon the performance of the Fund, but rather the individual's contribution to the Sub-Adviser's current and future success, including investment performance across all strategies, contribution to the investment process, client interaction and overall contribution to the Sub-Adviser.

Securities Owned in the Fund by Portfolio Managers. As of the date of this SAI, the Fund had not commenced operations. Accordingly, neither Mr. Boothe and Mr. Vu owned shares of the Fund.

SERVICE PROVIDERS

Fund Administrator, Transfer Agent and Fund Accountant

Pursuant to a fund administration servicing agreement (the "Administration Agreement"), U.S. Bancorp Fund Services, LLC, (the "Administrator"), doing business as U.S. Bank Global Fund Services ("Fund Services"), 615 East Michigan Street, Milwaukee, Wisconsin 53202, acts as the Administrator to the Fund. Fund Services provides certain services to the Fund including, among other responsibilities,

coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Funds' independent contractors and agents; preparation for signature by an officer of the Trust of all documents required to be filed for compliance by the Trust and the Fund with applicable laws and regulations, excluding those of the securities laws of various states; arranging for the computation of performance data, including NAV per share and yield; responding to shareholder inquiries; and arranging for the maintenance of books and records of the Fund, and providing, at its own expense, office facilities, equipment and personnel necessary to carry out its duties. In this capacity, Fund Services does not have any responsibility or authority for the management of the Fund, the determination of investment policy, or for any matter pertaining to the distribution of Fund shares.

Fund Services is also entitled to certain out-of-pocket expenses. In addition to its role as Administrator, Fund Services acts as fund accountant, transfer agent (the "Transfer Agent") and dividend disbursing agent under separate agreements. Additionally, the Administrator provides CCO services to the Trust under a separate agreement. The cost of the CCO services is charged to the Fund and approved by the Board annually.

Custodian

Pursuant to a Custody Agreement between the Trust and U.S. Bank National Association, located at 1555 North RiverCenter Drive, Suite 302, Milwaukee, Wisconsin 53212 (the "Custodian"), the Custodian serves as the custodian of the Fund's assets, holds the Fund's portfolio securities in safekeeping, and keeps all necessary records and documents relating to its duties. The Custodian is compensated with an asset-based fee plus transaction fees and is reimbursed for out-of-pocket expenses.

The Custodian and Administrator do not participate in decisions relating to the purchase and sale of securities by the Fund. The Administrator, Transfer Agent and Custodian are affiliated entities under the common control of U.S. Bancorp. The Custodian and its affiliates may participate in revenue sharing arrangements with the service providers of mutual funds in which the Fund may invest.

Independent Registered Public Accounting Firm and Legal Counsel

Tait, Weller & Baker LLP ("Tait"), Two Liberty Place, 50 South 16th Street, Suite 2900, Philadelphia, Pennsylvania 19102, is the independent registered public accounting firm for the Fund, whose services include auditing the Fund's financial statements and the performance of related tax services.

Sullivan & Worcester LLP ("Sullivan & Worcester"), 1633 Broadway, 32nd Floor, New York, New York 10019, serves as legal counsel to the Trust. Sullivan & Worcester also serves as independent legal counsel to the Board of Trustees.

EXECUTION OF PORTFOLIO TRANSACTIONS

Pursuant to the Advisory Agreement, the Sub-Adviser determines which securities are to be purchased and sold by the Fund and which broker-dealers are eligible to execute the Fund's portfolio transactions. Purchases and sales of securities in the over-the-counter market will generally be executed directly with a "market-maker" unless, in the opinion of the Sub-Adviser, a better price and execution can otherwise be obtained by using a broker for the transaction.

Purchases of portfolio securities for the Fund also may be made directly from issuers or from underwriters. Where possible, purchase and sale transactions will be effected through dealers (including banks) which specialize in the types of securities which the Fund will be holding, unless better executions are available elsewhere. Dealers and underwriters usually act as principal for their own account. Purchases from underwriters will include a concession paid by the issuer to the underwriter and purchases from dealers will include the spread between the bid and the asked price. If the execution and price

offered by more than one dealer or underwriter are comparable, the order may be allocated to a dealer or underwriter that has provided research or other services as discussed below.

In placing portfolio transactions, the Sub-Adviser will seek best execution. The full range and quality of services available will be considered in making these determinations, such as the size of the order, the difficulty of execution, the operational facilities of the firm involved, the firm's risk in positioning a block of securities, and other factors. In those instances where it is reasonably determined that more than one broker-dealer can offer the services needed to obtain the most favorable price and execution available, consideration may be given to those broker-dealers which furnish or supply research and statistical information to the Sub-Adviser that it may lawfully and appropriately use in its investment advisory capacities, as well as provide other services in addition to execution services. The Sub-Adviser considers such information, which is in addition to and not in lieu of the services required to be performed by it under its Agreement with the Fund, to be useful in varying degrees, but of indeterminable value. Portfolio transactions may be placed with broker-dealers who sell shares of the Fund subject to rules adopted by FINRA and the SEC.

While it is the Fund's general policy to first seek to obtain the most favorable price and execution available in selecting a broker-dealer to execute portfolio transactions for the Fund, in accordance with Section 28(e) under the Securities and Exchange Act of 1934, when it is determined that more than one broker can deliver best execution, weight is also given to the ability of a broker-dealer to furnish brokerage and research services to the Fund or to the Sub-Adviser, even if the specific services are not directly useful to the Fund and may be useful to the Sub-Adviser in advising other clients. In negotiating commissions with a broker or evaluating the spread to be paid to a dealer, the Fund may therefore pay a higher commission or spread than would be the case if no weight were given to the furnishing of these supplemental services, provided that the amount of such commission or spread has been determined in good faith by the Sub-Adviser to be reasonable in relation to the value of the brokerage and/or research services provided by such broker-dealer.

Investment decisions for the Fund is made independently from those of other client accounts or mutual funds managed or advised by the Sub-Adviser. Nevertheless, it is possible that at times identical securities will be acceptable for both the Fund and one or more of such client accounts or mutual funds. In such event, the position of the Fund and such client account(s) or mutual funds in the same issuer may vary and the length of time that each may choose to hold its investment in the same issuer may likewise vary. However, to the extent any of these client accounts or mutual funds seek to acquire the same security as the Fund at the same time, the Fund may not be able to acquire as large a portion of such security as it desires, or it may have to pay a higher price or obtain a lower yield for such security. Similarly, the Fund may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time. If one or more of such client accounts or mutual funds simultaneously purchases or sells the same security that the Fund is purchasing or selling, each day's transactions in such security will be allocated between the Fund and all such client accounts or mutual funds in a manner deemed equitable by the Sub-Adviser, taking into account the respective sizes of the accounts and the amount of cash available for investment, the investment objective of the account, and the ease with which a client's appropriate amount can be bought, as well as the liquidity and volatility of the account and the urgency involved in making an investment decision for the client. It is recognized that in some cases this system could have a detrimental effect on the price or value of the security insofar as the Fund is concerned. In other cases, however, it is believed that the ability of the Fund to participate in volume transactions may produce better executions for the Fund.

DISTRIBUTION AGREEMENT

The Trust has entered into a Distribution Agreement (the “Distribution Agreement”) with Quasar Distributors, LLC, 111 East Kilbourn Avenue, Suite 2200, Milwaukee, Wisconsin 53202 (the “Distributor”), pursuant to which the Distributor acts as the Fund’s distributor, provides certain administration services and promotes and arranges for the sale of Fund shares. The offering of the Fund’s shares is continuous. The Distributor is a registered broker-dealer and member of FINRA.

After the initial two-year period, the Distribution Agreement will continue in effect only if such continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund’s outstanding voting securities and, in either case, by a majority of the Trustees who are not parties to the Distribution Agreement or “interested persons” (as defined in the 1940 Act) of any such party. The Distribution Agreement is terminable without penalty by the Trust on behalf of the Fund on 60 days’ written notice when authorized either by a majority vote of the Fund’s shareholders or by vote of a majority of the Board, including a majority of the Trustees who are not “interested persons” (as defined in the 1940 Act) of the Trust, or by the Distributor on 60 days’ written notice, and will automatically terminate in the event of its “assignment” (as defined in the 1940 Act).

RULE 12b-1 DISTRIBUTION AND SERVICE PLAN

The Fund has adopted a Distribution and Service Plan (the “Plan”) pursuant to Rule 12b-1 under the 1940 Act under which the Class A shares and the Investor Class shares for the Dividend Growth Fund and the Investor Class shares pay the Distributor an amount which is accrued daily and paid quarterly, at an annual rate of up to 0.25% of the average daily net assets. The Plan provides that the Distributor may use all or any portion of such fee to finance any activity that is principally intended to result in the sale of Fund shares, subject to the terms of the Plan, or to provide certain shareholder services. Amounts paid under the Plan, by the Fund, are paid to the Distributor to reimburse it for costs of the services it provides and the expenses it bears in the distribution of the Fund’s Class A shares and Investor Class shares, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund’s shares to prospective investors; and preparation, printing and distribution of sales literature and advertising materials. In addition, payments to the Distributor under the Plan reimburse the Distributor for payments it makes to selected dealers and administrators which have entered into Service Agreements with the Distributor for services provided to shareholders of the Fund. The services provided by selected dealers pursuant to the Plan are primarily designed to promote the sale of shares of the Fund and includes the furnishing of office space and equipment, telephone facilities, personnel and assistance to the Fund in servicing such shareholders. The services provided by the administrators pursuant to the Plan are designed to provide support services to the Fund and includes establishing and maintaining shareholders’ accounts and records, processing purchase and redemption transactions, answering routine client inquiries regarding the Fund and providing other services to the Fund as may be required.

Under the Plan, the Trustees are furnished quarterly with information detailing the amount of expenses paid under the Plan and the purposes for which payments were made. The Plan may be terminated at any time by vote of a majority of the Trustees of the Trust who are not interested persons. Continuation of the Plan is considered by such Trustees no less frequently than annually. With the exception of the Distributor in its capacity as the Fund’s principal underwriter, no interested person has or had a direct or indirect financial interest in the Plan or any related agreement.

While there is no assurance that the expenditures of Fund assets to finance the distribution of shares will have the anticipated results, the Board believes there is a reasonable likelihood that one or more of such

benefits will result, and because the Board is in a position to monitor the distribution expenses, it is able to determine the benefit of such expenditures in deciding whether to continue the Plan.

Sub-Accounting Service Fees

In addition to the fees that the Fund may pay to the Transfer Agent, the Board has authorized the Fund to pay service fees, at the annual rate of up to 0.15% of applicable average net assets or \$20 per account, to intermediaries such as banks, broker-dealers, financial advisers or other financial institutions, for sub-administration, sub-transfer agency, recordkeeping (collectively, “sub-accounting services”) and other shareholder services associated with shareholders whose shares are held of record in omnibus, networked, or other group accounts or accounts traded through registered securities clearing agents. Any sub-accounting fees paid by the Fund are included in the total amount of “Other Expenses” listed in the Fund’s Fees and Expenses table in the Prospectus.

MARKETING AND SUPPORT PAYMENTS

The Adviser, out of its own resources and without additional cost to the Fund or its shareholders, may provide additional cash payments or other compensation to certain financial intermediaries who sell shares of the Fund. Such payments may be divided into categories as follows:

Support Payments. Payments may be made by the Adviser to certain financial intermediaries in connection with the eligibility of the Fund to be offered in certain programs and/or in connection with meetings between the Fund’s representatives and financial intermediaries and their sales representatives. Such meetings may be held for various purposes, including providing education and training about the Fund and other general financial topics to assist financial intermediaries’ sales representatives in making informed recommendations to, and decisions on behalf of, their clients.

Entertainment, Conferences and Events. The Adviser also may pay cash or non-cash compensation to sales representatives of financial intermediaries in the form of (i) occasional gifts; (ii) occasional meals, tickets or other entertainments; and/or (iii) sponsorship support for the financial intermediary’s client seminars and cooperative advertising. In addition, the Adviser pays for exhibit space or sponsorships at regional or national events of financial intermediaries.

The prospect of receiving, or the receipt of additional payments or other compensation as described above by financial intermediaries may provide such intermediaries and/or their salespersons with an incentive to favor sales of shares of the Fund, and other mutual funds whose affiliates make similar compensation available, over sale of shares of mutual funds (or non-mutual fund investments) not making such payments. You may wish to take such payment arrangements into account when considering and evaluating any recommendations relating to the Fund’s shares.

CODES OF ETHICS

The Trust, the Adviser and the Sub-Adviser, have each adopted separate Codes of Ethics under Rule 17j-1 of the 1940 Act. These Codes permit, subject to certain conditions, access persons of the Adviser and the Sub-Adviser to invest in securities that may be purchased or held by the Fund. The Distributor, as defined below, relies on the principal underwriter’s exception under Rule 17j-1(c)(3), of the 1940 Act, specifically where the Distributor is not affiliated with the Trust or the Adviser, or the Sub-Adviser and no officer, director or general partner of the Distributor serves as an officer, director or general partner of the Trust or the Adviser or the Sub-Adviser.

PORTFOLIO HOLDINGS POLICY

The Adviser and the Fund maintain portfolio holdings disclosure policies that govern the timing and circumstances of disclosure to shareholders and third parties of information regarding the portfolio investments held by the Fund. These portfolio holdings disclosure policies have been approved by the Board. Disclosure of the Fund's complete holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the annual report and semi-annual report to Fund shareholders and in the quarterly holdings report on Part F of Form N-PORT. These reports are available, free of charge, on the EDGAR database on the SEC's website at www.sec.gov.

Pursuant to the Trust's portfolio holdings disclosure policies, information about the Fund's portfolio holdings is not distributed to any person unless:

- The disclosure is required pursuant to a regulatory request, court order or is legally required in the context of other legal proceedings;
- The disclosure is made to a mutual fund rating and/or ranking organization, or person performing similar functions, who is subject to a duty of confidentiality, including a duty not to trade on any non-public information;
- The disclosure is made to internal parties involved in the investment process, administration, operation or custody of the Fund, including, but not limited to U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services") and the Trust's Board of Trustees, attorneys, auditors or accountants;
- The disclosure is made: (a) in connection with a quarterly, semi-annual or annual report that is available to the public; or (b) relates to information that is otherwise available to the public; or
- The disclosure is made with the prior written approval of either the Trust's Chief Compliance Officer ("CCO") or his or her designee.

Certain of the persons listed above receive information about the Fund's portfolio holdings on an ongoing basis. The Fund believes that these third parties have legitimate objectives in requesting such portfolio holdings information and operate in the best interest of the Fund's shareholders. These persons include:

- A mutual fund rating and/or ranking organization, or person performing similar functions, who is subject to a duty of confidentiality, including a duty not to trade on any non-public information;
- Rating and/or ranking organizations, specifically: Lipper; Morningstar; Standard & Poor's; Bloomberg; Vickers-Stock Research Corporation; Thomson Financial; and Capital-Bridge, all of which currently receive such information no later than 60 calendar days following the end of a calendar quarter; or
- Internal parties involved in the investment process, administration, operation or custody of the Fund, specifically: Fund Services; the Trust's Board of Trustees; and the Trust's attorneys and accountants (currently, Sullivan & Worcester LLP ("Sullivan & Worcester") and Tait, Weller & Baker LLP, respectively), all of which typically receive such information after it is generated.

Any disclosures to additional parties not described above is made with the prior written approval of either the Trust's CCO or his or her designee, pursuant to the Trust's Policy and Procedures Regarding Disclosure of Portfolio Holdings.

The CCO or designated officer of the Trust will approve the furnishing of non-public portfolio holdings to a third party only if they consider the furnishing of such information to be in the best interest of the Fund

and its shareholders and if no material conflict of interest exists regarding such disclosure between shareholders interest and those of the Adviser, Distributor or any affiliated person of the Fund. No consideration may be received by the Fund, the Adviser, any affiliate of the Adviser or their employees in connection with the disclosure of portfolio holdings information. The Board receives and reviews annually a list of the persons who receive non-public portfolio holdings information and the purpose for which it is furnished.

DETERMINATION OF SHARE PRICE

The NAV of the Fund is determined as of the close of regular trading on the New York Stock Exchange (the “NYSE”) (generally 4:00 p.m., Eastern Time), each day the NYSE is open for business. The NYSE annually announces the days on which it will not be open for trading. It is expected that the NYSE will not be open for trading on the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Washington’s Birthday/Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

NAV is calculated by adding the value of all securities and other assets attributable to the Fund (including interest and dividends accrued, but not yet received), then subtracting liabilities attributable to a Fund (including accrued expenses). The net asset amount attributable to the Class A shares, Institutional Class shares and Investor Class shares is divided by the number of shares held by investors of each applicable class.

Generally, a Fund’s investments are valued at market value or, in the absence of a market value, at fair value as determined in good faith by the Trust’s Valuation Committee pursuant to procedures approved by or under the direction of the Board. Pursuant to those procedures, the Valuation Committee considers, among other things: (1) the last sales price on the securities exchange, if any, on which a security is primarily traded; (2) the mean between the bid and asked prices; (3) price quotations from an approved pricing service; and (4) other factors as necessary to determine a fair value under certain circumstances.

Securities primarily traded in the NASDAQ Global Market[®] for which market quotations are readily available shall be valued using the NASDAQ[®] Official Closing Price (“NOCP”). If the NOCP is not available, such securities shall be valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and asked prices. OTC securities which are not traded in the NASDAQ Global Market[®] shall be valued at the most recent sales price. Securities and assets for which market quotations are not readily available (including restricted securities which are subject to limitations as to their sale) are valued at fair value as determined in good faith under procedures approved by or under the direction of the Board.

Debt securities are valued on the basis of valuations provided by independent third-party pricing services, approved by the Board, or at fair value as determined in good faith by procedures approved by the Board. Any such pricing service, in determining value, will use information with respect to transactions in the securities being valued, quotations from dealers, market transactions in comparable securities, analyses and evaluations of various relationships between securities and yield to maturity information.

The Fund’s securities, which are traded on securities exchanges are valued at the last sale price on the exchange on which such securities are traded, as of the close of business on the day the securities are being valued or, lacking any reported sales, at the mean between the last available bid and asked price. Securities that are traded on more than one exchange are valued on the exchange determined by the Adviser to be the primary market.

In the case of foreign securities, the occurrence of certain events after the close of foreign markets, but prior to the time a Fund's NAV is calculated (such as a significant surge or decline in the U.S. or other markets) often will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. If such events occur, a Fund will value foreign securities at fair value, taking into account such events, in calculating the NAV. In such cases, use of fair valuation can reduce an investor's ability to seek to profit by estimating a Fund's NAV in advance of the time the NAV is calculated. The Adviser anticipates that a Fund's portfolio holdings will be fair valued only if market quotations for those holdings are considered unreliable or are unavailable.

An option that is written or purchased by a Fund shall be valued using composite pricing via the National Best Bid and Offer quotes. Composite pricing looks at the last trade on the exchange where the option is traded. If there are no trades for an option on a given business day, as of closing, a Fund will value the option at the mean of the highest bid price and lowest ask price across the exchanges where the option is traded. For options where market quotations are not readily available, fair value shall be determined by the Trust's Valuation Committee.

All other assets of a Fund are valued in such manner as the Board in good faith deems appropriate to reflect their fair value.

ADDITIONAL PURCHASE AND REDEMPTION INFORMATION

The information provided below supplements the information contained in the Prospectus regarding the purchase and redemption of Fund shares.

How to Buy Shares

You may purchase shares of the Fund from securities brokers, dealers or financial intermediaries (collectively, "Financial Intermediaries"). Investors should contact their Financial Intermediary directly for appropriate instructions, as well as information pertaining to accounts and any service or transaction fees that may be charged. The Fund may enter into arrangements with certain Financial Intermediaries whereby such Financial Intermediaries are authorized to accept your order on behalf of the Fund. Financial Intermediaries may be authorized by the Fund's principal underwriter to designate other brokers and financial intermediaries to accept orders on the Fund's behalf. If you transmit your order to these Financial Intermediaries before the close of regular trading (generally 4:00 p.m., Eastern Time) on a day that the NYSE is open for business, shares will be purchased at the appropriate per share price next computed after it is received by the Financial Intermediary. Investors should check with their Financial Intermediary to determine if it participates in these arrangements. A Fund will be deemed to have received a purchase order when a Financial Intermediary or, if applicable, a Financial Intermediary's authorized designee, receives the order.

The public offering price of Fund shares is the NAV per share. For Class A shares of the Dividend Growth Fund the public offering price is the NAV per share plus any applicable sales charge. Shares are purchased at the public offering price next determined after the Transfer Agent receives your order in good order. In most cases, in order to receive that day's public offering price, the Transfer Agent must receive your order in good order before the close of regular trading on the NYSE, normally 4:00 p.m., Eastern Time.

The Trust reserves the right in its sole discretion (i) to suspend the continued offering of a Fund's shares, and (ii) to reject purchase orders in whole or in part when in the judgment of the Adviser or the Distributor such rejection is in the best interest of a Fund.

Additionally, a Fund's minimum investment requirements may be waived by the Adviser, and for the following types of shareholders:

- current and retired employees, directors/trustees and officers of the Trust, the Adviser and its affiliates and certain family members of each of them (*i.e.*, spouse, domestic partner, child, parent, sibling, grandchild and grandparent, in each case including in-law, step and adoptive relationships);
- any trust, pension, profit sharing or other benefit plan for current and retired employees, directors/trustees and officers of the Adviser and its affiliates;
- current employees of the Transfer Agent, broker-dealers who act as selling agents for the Fund, intermediaries that have marketing agreements in place with the Adviser and the immediate family members of any of them;
- existing clients of the Adviser, their employees and immediate family members of such employees;
- registered investment advisers who buy through a broker-dealer or service agent who has entered into an agreement with the Distributor; and
- qualified broker-dealers who have entered into an agreement with the Distributor.

In addition to cash purchases, Fund shares may be purchased by tendering payment in-kind in the form of shares of stock, bonds or other securities. Any securities used to buy Fund shares must be readily marketable, their acquisition consistent with a Fund's investment objectives and otherwise acceptable to the Adviser and the Board.

For Class A shares of the Dividend Growth Fund, a financial intermediary may offer Fund shares subject to variations in or elimination of the Fund sales charges ("variations"), provided such variations are described in the Prospectus. All variations described in Schedule A are applied by, and the responsibility of, the identified financial intermediary. Sales charge variations may apply to purchases, sales, exchanges and reinvestments of Fund shares and a shareholder transacting in Fund shares through an intermediary identified on Schedule A should read the terms and conditions of Schedule A carefully. For the variations applicable to shares offered through a Morgan Stanley Wealth Management transactional brokerage account, please see Schedule A. A variation that is specific to a particular financial intermediary is not applicable to shares held directly with the Fund or through another intermediary. Please consult your financial intermediary with respect to any variations listed on Schedule A to the Fund's Prospectus.

Breakpoints/Volume Discounts and Sales Charge Waivers

Reducing Your Sales Charge. You may be able to reduce the sales charge on Class A shares of the Fund based on the combined market value of your accounts. If you believe you are eligible for any of the following reductions or waivers, it is up to you to ask the selling agent or shareholder servicing agent for the reduction and to provide appropriate proof of eligibility.

- You pay no sales charges on Fund shares you buy with reinvested distributions.
- You pay a lower sales charge if you are investing an amount over a specific breakpoint level as indicated by the above table.
- You pay no sales charges on Fund shares you purchase with the proceeds of a redemption of Class A shares within 120 days of the date of the redemption.

- By signing a Letter of Intent (LOI), you pay a lower sales charge now in exchange for promising to invest an amount over a specified breakpoint within the next 13 months. Any shares purchased within 90 days of the date you sign the LOI may be used as credit towards completion, but the reduced sales charge will only apply to new purchases made on or after that date. Reinvested dividends and capital gains do not count as purchases made during this period. The Transfer Agent will hold in escrow shares equal to approximately 2% of the amount you say you intend to buy. If you do not invest the amount specified in the LOI before the expiration date, the Transfer Agent will redeem enough escrowed shares to pay the difference between the reduced sales load you paid and the sales load you should have paid. Otherwise, the Transfer Agent will release the escrowed shares when you have invested the agreed amount. For example, an investor has \$75,000 to invest in a Fund, but intends to invest an additional \$2,000 per month for the next 13 months for a total of \$101,000. Based on the above breakpoint schedule, by signing the LOI, the investor pays a front-end load of 1.60% rather than 2.00%. If the investor fails to meet the intended LOI amount in the 13-month period, however, the Fund will charge the higher sales load retroactively.
- Rights of Accumulation (“ROA”) allow you to combine Class A shares you already own in order to reach breakpoint levels and to qualify for sales load discounts on subsequent purchases of Class A shares. The purchase amount used in determining the sales charge on your purchase will be calculated by multiplying the NAV by the number of Class A shares of the Fund already owned and adding the dollar amount of your current purchase. For example, an individual has a \$55,000 investment in a Fund, which was sold with a 2.00% front-end load. The investor intends to open a second account and purchase \$50,000 of the Fund. Using ROA, the new \$50,000 investment is combined with the existing \$55,000 investment to reach the \$100,000 breakpoint, and the sales charge on the new investment is 1.60% (rather than the 2.00% for a single transaction amount).

Eligible Accounts. Certain accounts may be aggregated for ROA eligibility, including your current investment in the Fund, and previous investments you and members of your primary household group have made in the Fund, provided your investment was subject to a sales charge. (Your primary household group consists of you, your spouse, child, stepchild, parent, sibling, grandchild and grandparent, in each case including in-law and adoptive relationships.) Specifically, the following accounts are eligible to be included in determining the sales charge on your purchase, if a sales charge has been paid on those purchases:

- Individual or joint accounts held in your name;
- Trust accounts for which you or a member of your primary household group, individually, is the beneficiary; and
- Accounts held in the name of you or your spouse’s sole proprietorship or single owner limited liability company or S corporation.

The following accounts are not eligible to be included in determining ROA eligibility:

- Investments in Class A shares where the sales charge was waived.

Waiving Your Sales Charge. The Fund’s Adviser reserves the right to waive the sales charges for certain groups or classes of shareholders. If you fall into any of the following categories, you can buy Class A shares at NAV per share without a sales charge:

- Current and retired employees, directors/trustees and officers of:
 - i. The Trust; and
 - ii. The Adviser and its affiliates;

- iii. Family members (spouse, domestic partner, parents, grandparents, children, grandchildren and siblings (including step and in-law)) of (i)-(ii); and
- Any trust, pension, profit sharing or other benefit plan for current employees, directors/trustees and officers of the Adviser and its affiliates;
- Current employees of:
 - i. The Transfer Agent;
 - ii. broker-dealers who act as selling agents for the Fund/Trust;
 - iii. family members (spouse, domestic partner, parents, grandparents, children, grandchildren and siblings (including step and in-law)) of (i)-(ii);
- Purchases for the benefit of the clients of brokers, dealers, and registered investment advisers if such brokers, dealers, or investment advisers have entered into an agreement with the Distributor providing specifically for the purchase of Class A shares in connection with special investment products, such as wrap accounts or similar fee-based programs. Investors may be charged a fee when effecting transactions in Class A shares through a broker or agent that offers these special investment products;
- Purchases by retirement plans that are maintained on retirement platforms sponsored by financial intermediary firms, provided the financial intermediary firms have entered into a Class A NAV agreement with respect to such retirement platforms;
- Waiver of Class A sales charge for financial intermediaries who have entered into an agreement with the Distributor to offer shares to self-directed investment brokerage accounts that may or may not charge a transaction fee to its customers; and
- Purchases resulting from the reinvestment of a distribution

To receive a reduction or waiver of your Class A initial sales charge, you must inform your financial intermediary or the Adviser at the time you purchase shares that you qualify for such a reduction. If you do not inform your financial intermediary or the Adviser that you are eligible for a reduction, you may not receive the sales charge discount to which you are otherwise entitled. In order to determine your eligibility to receive a sales charge discount, it may be necessary for you to provide to your financial intermediary or the Adviser, information and records (including account statements) of all relevant accounts invested in the Dividend Growth Fund. Sales charge waivers may not be available through certain financial intermediaries, due to the policies, procedures, trading platforms and/or systems of the financial intermediaries. You may need to invest directly through the Adviser in order to receive the sales charge waivers described herein.

The Trust also reserves the right to enter into agreements that reduce or eliminate sales charges for other groups or classes of shareholders, including for Fund shares included in other investment plans such as “wrap accounts.” If you own Fund shares as part of another account or package, such as an IRA or a sweep account, you should read the terms and conditions that apply for that account. Those terms and conditions may supersede the terms and conditions discussed here. Contact your Broker for further information.

A financial intermediary may impose different sales load discounts. Sales load discount and waiver variations specific to certain financial intermediaries are described in Schedule A to the Prospectus.

How to Sell Shares and Delivery of Redemption Proceeds

You can sell your Fund shares any day the NYSE is open for regular trading, either directly to the Fund or through your Financial Intermediary. A Fund will be deemed to have received a redemption order when a

Financial Intermediary or, if applicable, a Financial Intermediary's authorized designee, receives the order.

Payments to shareholders for shares of the Fund redeemed directly from the Fund will be made as promptly as possible, but no later than seven days after receipt by the Transfer Agent of the written request in proper form, with the appropriate documentation as stated in the Prospectus, except that the Fund may suspend the right of redemption or postpone the date of payment during any period when (a) trading on the NYSE is restricted as determined by the SEC or the NYSE is closed for other than weekends and holidays; (b) an emergency exists as determined by the SEC making disposal of portfolio securities or valuation of net assets of a Fund not reasonably practicable; or (c) for such other period as the SEC may permit for the protection of the Fund's shareholders. Under unusual circumstances, a Fund may suspend redemptions, or postpone payment for more than seven days, but only as authorized by SEC rules.

The value of shares on redemption or repurchase may be more or less than the investor's cost, depending upon the market value of the Fund's portfolio securities at the time of redemption or repurchase.

Telephone Redemptions

Shareholders with telephone transaction privileges established on their account may redeem Fund shares by telephone. Upon receipt of any instructions or inquiries by telephone from the shareholder, a Fund or its authorized agents may carry out the instructions and/or respond to the inquiry consistent with the shareholder's previously established account service options. For joint accounts, instructions or inquiries from either party will be carried out without prior notice to the other account owners. In acting upon telephone instructions, a Fund and its agents use procedures that are reasonably designed to ensure that such instructions are genuine. These include recording all telephone calls, requiring pertinent information about the account and sending written confirmation of each transaction to the registered owner.

Fund Services will employ reasonable procedures to confirm that instructions communicated by telephone are genuine. If Fund Services fails to employ reasonable procedures, a Fund and Fund Services may be liable for any losses due to unauthorized or fraudulent instructions. If these procedures are followed, however, to the extent permitted by applicable law, neither the Fund nor their agents will be liable for any loss, liability, cost or expense arising out of any redemption request, including any fraudulent or unauthorized request. For additional information, contact Fund Services.

Redemptions In-Kind

The Trust has elected to be governed by Rule 18f-1 under the 1940 Act so that the Fund is obligated to redeem their shares solely in cash up to the lesser of \$250,000 or 1% of its net asset value during any 90-day period for any shareholder of the Fund. The Fund has reserved the right to pay the redemption price of its shares in excess of \$250,000 or 1% of its net asset value either totally or partially, by a distribution in-kind of portfolio securities (instead of cash). The securities so distributed would be valued at the same amount as that assigned to them in calculating the NAV per share for the shares being sold. A redemption, whether in cash or in-kind, is a taxable event for you. If a shareholder receives a redemption in-kind, the shareholder could incur brokerage or other charges in converting the securities to cash.

The Fund does not intend to hold any significant percentage of its portfolio in illiquid securities, although the Fund, like virtually all mutual funds, may from time to time hold a small percentage of securities that are illiquid. In the unlikely event a Fund were to elect to make an in-kind redemption, a Fund expects that it would follow the Trust protocol of making such distribution of securities that are traded on a public securities market or are otherwise considered liquid pursuant to the Fund's liquidity policies and procedures. Except as otherwise may be approved by the Trustees, the securities that would not be included in an in-kind distribution include (1) unregistered securities which, if distributed, would be

required to be registered under the Securities Act of 1933 (the “1933 Act”), as amended; (2) securities issued by entities in countries which (a) restrict or prohibit the holding of securities by non-nationals other than through qualified investment vehicles, such as a fund, or (b) permit transfers of ownership of securities to be effected only by transactions conducted on a local stock exchange; and (3) certain Fund assets that, although they may be liquid and marketable, must be traded through the marketplace or with the counterparty to the transaction in order to effect a change in beneficial ownership.

Conversion Feature

If consistent with your financial intermediary’s program, Investor Class shares of the Fund and Class A shares of the Dividend Growth Fund that have been purchased by a financial intermediary on behalf of clients participating in (i) 401(k) plans, Section 457 deferred compensation plans, employer-sponsored 403(b) plans, profit-sharing and money purchase pension plans, defined benefit plans and nonqualified deferred compensation plans or (ii) investment programs in which the clients pay a fixed or asset-based fee, may be converted into Institutional Class shares of the Fund if the financial intermediary satisfies any then-applicable eligibility requirements for investment in Institutional Class shares of the Fund. Any such conversion will be effected at NAV without the imposition of any fee or other charges by the Fund. Please contact your financial intermediary about any fees that it may charge.

DISTRIBUTIONS AND TAX INFORMATION

Distributions

The Fund will make distributions of net investment income quarterly. The Fund will make distributions of capital gains, if any, on an annual basis. The Fund typically distributes any undistributed net investment income on or about December 31 of each year. Any net capital gains realized through the period ended October 31 of each year also will be distributed by December 31 of each year.

Each distribution by a Fund is accompanied by a brief explanation of the form and character of the distribution. In January of each year, the Fund will issue to each shareholder a statement of the federal income tax status of all distributions.

Tax Information

Each series of the Trust is treated as a separate entity for federal income tax purposes. The Fund, as series of the Trust, have elected and intend to qualify to be taxed as regulated investment companies under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”), and to comply with all applicable requirements regarding the source of income, diversification of assets and the timing and amount of distributions. The Fund’s policy is to distribute to shareholders all investment income and any net realized long-term capital gains for each fiscal year in a manner that complies with the distribution requirements of the Code, so that the Fund will not be subject to any federal income or excise taxes. If the Fund does not qualify as regulated investment companies, they will be taxed as regular corporations and will not be entitled to deduct the dividends paid to shareholders. The Fund can give no assurances that distributions will be sufficient to eliminate all taxes in every year. To avoid a non-deductible 4% federal excise tax, the Fund must distribute (or be deemed to have distributed) by December 31 of each calendar year (1) at least 98% of its ordinary income for such year, (2) at least 98.2% of the excess of realized capital gains over realized capital losses for the 12-month period ending on October 31 during such year, and (3) any amounts from the prior calendar year that were not distributed and on which no federal excise tax was paid by the Fund or by shareholders.

To qualify as a regulated investment company, the Fund must, among other things, derive at least 90% of its gross income each year from dividends, interest, payments with respect to loans of stock and securities, gains from the sale or other disposition of stock or securities or foreign currency gains related to investments in stock or securities, or other income (generally including gains from options, futures or

forward contracts) derived with respect to the business of investing in stock, securities or currency, and net income derived from an interest in a qualified publicly traded partnership. The Fund must also satisfy the following two asset diversification tests. At the end of each quarter of each taxable year, (1) at least 50% of the value of the Fund's total assets must be represented by cash and cash items (including receivables), U.S. Government securities, the securities of other regulated investment companies, and other securities, with such other securities being limited in respect of any one issuer to an amount not greater than 5% of the value of the Fund's total assets and not more than 10% of the outstanding voting securities of such issuer, and (2) not more than 25% of the value of the Fund's total assets may be invested in the securities of any one issuer (other than U.S. Government securities or the securities of other regulated investment companies), the securities of any two or more issuers (other than the securities of other regulated investment companies) that the Fund controls (by owning 20% or more of their outstanding voting stock) and that are determined to be engaged in the same or similar trades or businesses or related trades or businesses, or the securities of one or more qualified publicly traded partnerships. The Fund must also distribute each taxable year sufficient dividends to its shareholders to claim a dividends paid deduction equal to at least the sum of 90% of the Fund's investment company taxable income (which generally includes dividends, interest, and the excess of net short-term capital gain over net long-term capital loss) and 90% of a Fund's net tax-exempt interest, if any.

Net investment income generally consists of interest and dividend income, less expenses. Net realized capital gains for a fiscal year are computed by taking into account any capital loss carryforward of the Fund.

Distributions of net investment income and net short-term capital gains are taxable to shareholders as ordinary income. Dividends from the Fund and gains from the sale of the Fund's shares are subject to the federal 3.8% surtax on net investment income applicable to taxpayers in the higher income tax brackets. Long-term capital gain distributions are taxable to shareholders as long-term capital gains regardless of the length of time shares have been held. Capital gain distributions are not eligible for the dividends-received deduction for corporate shareholders. There is no requirement that the Fund take into consideration any tax implications when implementing its investment strategy. Distributions of any net investment income and net realized capital gains will be taxable as described above, whether received in shares or in cash. Shareholders who choose to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the NAV of a share on the reinvestment date. Distributions generally are taxable when received or deemed to have been received. However, distributions declared in October, November or December to shareholders of record on a date in such a month and paid the following January are taxable as if received on December 31. Distributions are includable in alternative minimum taxable income in computing liability for the alternative minimum tax of a shareholder who is an individual. Shareholders should note that the Fund may make taxable distributions of income and capital gains even when share values have declined.

The Fund may be subject to foreign withholding taxes on dividends and interest earned with respect to securities of foreign corporations.

For taxable years beginning after 2017 and before 2025, non-corporate taxpayers generally may deduct 20% of "qualified business income" derived either directly or through partnerships or S corporations. For this purpose, "qualified business income" generally includes ordinary real estate investment trust ("REIT") dividends and income derived from master limited partnership ("MLP") investments. There is currently no mechanism for the Fund to the extent that the Fund invest in REITs or MLPs to pass through to non-corporate shareholders the character of ordinary REIT dividends or income derived from MLP investments so as to allow such shareholders to claim this deduction. It is uncertain whether future legislation or other guidance will enable the Fund to pass through to non-corporate shareholders the ability to claim this deduction.

Redemption of Fund shares may result in recognition of a taxable gain or loss. Any loss realized upon redemption or sale of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as distributions of long-term capital gains during such six-month period. Any loss realized upon a redemption or sale may be disallowed under certain wash sale rules to the extent shares of the Fund are purchased (through reinvestment of distributions or otherwise) within 30 days before or after the redemption.

Under the Code, the Fund is required to report to the Internal Revenue Service (“IRS”) all distributions of taxable income and capital gains as well as gross proceeds from the redemption of Fund shares, except in the case of exempt shareholders, which includes most corporations. Pursuant to the backup withholding provisions of the Code, distributions of any taxable income and capital gains and proceeds from the redemption of Fund shares may be subject to withholding of federal income tax at the rate of 24% in the case of non-exempt shareholders who fail to furnish the Fund with their Social Security or taxpayer identification numbers or with required certifications regarding their status under the federal income tax law, or if the IRS notifies the Fund that such backup withholding is required. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld. Corporate and other exempt shareholders should provide the Fund with their taxpayer identification numbers or certify their exempt status in order to avoid possible erroneous application of backup withholding. Backup withholding is not an additional tax and any amounts withheld may be credited against a shareholder’s ultimate federal income tax liability if proper documentation is provided. The Fund reserves the right to refuse to open an account for any person failing to provide a certified taxpayer identification number.

The Foreign Account Tax Compliance Act (“FATCA”). A 30% withholding tax on the Fund’s ordinary income distributions, generally applies if paid to a foreign entity unless: (i) if the foreign entity is a “foreign financial institution,” it undertakes certain due diligence, reporting, withholding and certification obligations, (ii) if the foreign entity is not a “foreign financial institution,” it identifies certain of its U.S. investors, or (iii) the foreign entity is otherwise excepted under FATCA. If applicable, and subject to any intergovernmental agreement, withholding under FATCA is required generally with respect to distributions from the Fund. If withholding is required under FATCA on a payment related to your shares, investors that otherwise would not be subject to withholding (or that otherwise would be entitled to a reduced rate of withholding) on such payment generally will be required to seek a refund or credit from the IRS to obtain the benefits of such exemption or reduction. The Fund will not pay any additional amounts in respect to amounts withheld under FATCA. You should consult your tax advisor regarding the effect of FATCA based on your individual circumstances.

The foregoing discussion of U.S. federal income tax law relates solely to the application of that law to U.S. citizens or residents and U.S. domestic corporations, estates the income of which is subject to United States federal income taxation regardless of its source, and trusts that (1) are subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (2) have a valid election in effect under applicable United States Treasury regulations to be treated as a United States person. Each shareholder who is not a U.S. person should consider the U.S. and foreign tax consequences of ownership of shares of the Fund, including the possibility that such a shareholder may be subject to U.S. withholding tax at a rate of 30% (or at a lower rate under an applicable income tax treaty) on amounts constituting ordinary income.

This discussion and the related discussion in the Prospectus have been prepared by Fund management. The information above is only a summary of some of the tax considerations generally affecting the Fund and their shareholders. No attempt has been made to discuss individual tax consequences, and this discussion should not be construed as applicable to all shareholders’ tax situations. Investors should consult their own tax advisors to determine the suitability of the Fund and the applicability of any state,

local or foreign taxation. No rulings with respect to tax matters of the Fund will be sought from the Internal Revenue Service. Sullivan & Worcester has expressed no opinion in respect of the foreign or tax information in the Prospectus or this SAI.

ANTI-MONEY LAUNDERING PROGRAM

The Trust has established an Anti-Money Laundering Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (“USA PATRIOT Act”). In order to ensure compliance with this law, the Trust’s Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program.

Procedures to implement the Program include, but are not limited to, determining that the Fund’s Distributor and Transfer Agent have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity, checking shareholder names against designated government lists, including Office of Foreign Asset Control (“OFAC”), and a complete and thorough review of all new opening account applications. The Trust will not transact business with any person or legal entity whose identity and beneficial owners, if applicable, cannot be adequately verified under the provisions of the USA PATRIOT Act.

GENERAL INFORMATION

The Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest and to divide or combine the shares into a greater or lesser number of shares without thereby changing the proportionate beneficial interest in the Fund. Each share represents an interest in the Fund proportionately equal to the interest of each other share. Upon a Fund’s liquidation, all shareholders would share pro rata in the net assets of the Fund available for distribution to shareholders.

With respect to the Fund, the Trust may offer more than one class of shares. The Trust has adopted a Multiple Class Plan pursuant to Rule 18f-3 under the 1940 Act, detailing the attributes of each class of the Fund, and has reserved the right to create and issue additional series or classes. Each share of a series or class represents an equal proportionate interest in that series or class with each other share of that series or class.

The shares of each series or class participate equally in the earnings, dividends and assets of the particular series or class. Expenses of the Trust which are not attributable to a specific series or class are allocated among all the series in a manner believed by management of the Trust to be fair and equitable. Shares have no pre-emptive rights. Shares, when issued, are fully paid and non-assessable, except as set forth below. Shareholders are entitled to one vote for each share held. Shares of each series or class generally vote together, except when required under federal securities laws to vote separately on matters that only affect a particular class, such as the approval of distribution plans for a particular class.

The Trust is not required to hold annual meetings of shareholders but will hold special meetings of shareholders of a series or class when, in the judgment of the Trustees, it is necessary or desirable to submit matters for a shareholder vote. Shareholders have, under certain circumstances, the right to communicate with other shareholders in connection with requesting a meeting of shareholders for the purpose of removing one or more Trustees. Shareholders also have, in certain circumstances, the right to remove one or more Trustees without a meeting. No material amendment may be made to the Declaration of Trust without the affirmative vote of the holders of a majority of the outstanding shares of each portfolio affected by the amendment. The Declaration of Trust provides that, at any meeting of

shareholders of the Trust or of any series or class, a Shareholder Servicing Agent may vote any shares as to which such Shareholder Servicing Agent is the agent of record and which are not represented in person or by proxy at the meeting, proportionately in accordance with the votes cast by holders of all shares of that portfolio otherwise represented at the meeting in person or by proxy as to which such Shareholder Servicing Agent is the agent of record. Any shares so voted by a Shareholder Servicing Agent will be deemed represented at the meeting for purposes of quorum requirements. Any series or class may be terminated (i) upon the merger or consolidation with, or the sale or disposition of all or substantially all of its assets to, another entity, if approved by the vote of the holders of two thirds of its outstanding shares, except that if the Board recommends such merger, consolidation or sale or disposition of assets, the approval by vote of the holders of a majority of the series' or class' outstanding shares will be sufficient, or (ii) by the vote of the holders of a majority of its outstanding shares, or (iii) by the Board by written notice to the series' or class' shareholders. Unless each series and class is so terminated, the Trust will continue indefinitely.

The Declaration of Trust also provides that the Trust shall maintain appropriate insurance (for example, fidelity bonding and errors and omissions insurance) for the protection of the Trust, its shareholders, Trustees, officers, employees and agents covering possible tort and other liabilities. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which both inadequate insurance existed and the Trust itself was unable to meet its obligations.

The Declaration of Trust does not require the issuance of stock certificates. If stock certificates are issued, they must be returned by the registered owners prior to the transfer or redemption of shares represented by such certificates.

Rule 18f-2 under the 1940 Act provides that as to any investment company which has two or more series outstanding and as to any matter required to be submitted to shareholder vote, such matter is not deemed to have been effectively acted upon unless approved by the holders of a "majority" (as defined in the Rule) of the voting securities of each series affected by the matter. Such separate voting requirements do not apply to the election of Trustees or the ratification of the selection of accountants. The Rule contains special provisions for cases in which an advisory contract is approved by one or more, but not all, series. A change in investment policy may go into effect as to one or more series whose holders so approve the change even though the required vote is not obtained as to the holders of other affected series.

FINANCIAL STATEMENTS

The Fund is newly organized and therefore have not yet had any operations as of the date of this SAI. When available, you may request a copy of the Fund's Annual Report at no charge by calling 1-855-736-7799 (855-SEM-PRXX) or through the Fund's website at <http://www.sempercap.com/dividend-growth-equity-fund>.

APPENDIX A

Commercial Paper Ratings

Moody's Investors Service, Inc.

Prime-1--Issuers (or related supporting institutions) rated "Prime-1" have a superior ability for repayment of senior short-term debt obligations. "Prime-1" repayment ability will often be evidenced by many of the following characteristics: leading market positions in well-established industries, high rates of return on funds employed, conservative capitalization structures with moderate reliance on debt and ample asset protection, broad margins in earnings coverage of fixed financial charges and high internal cash generation, and well-established access to a range of financial markets and assured sources of alternate liquidity.

Prime-2--Issuers (or related supporting institutions) rated "Prime-2" have a strong ability for repayment of senior short-term debt obligations. This will normally be evidenced by many of the characteristics cited above but to a lesser degree. Earnings trends and coverage ratios, while sound, will be more subject to variation. Capitalization characteristics, while still appropriate, may be more affected by external conditions. Ample alternative liquidity is maintained.

Standard & Poor's Ratings Group

A-1--This highest category indicates that the degree of safety regarding timely payment is strong. Those issues determined to possess extremely strong safety characteristics are denoted with a plus (+) sign designation.

A-2--Capacity for timely payment on issues with this designation is satisfactory. However, the relative degree of safety is not as high as for issues designated "A-1".
